Your Choice of any 3 Plants Shown on This Page . . . for \$1.00

A suggestive plan showing how you can plant perennial beds. This plan is based on 5 feet wide and 20 feet long. This gives space for 100 plants selected from any of the following groups.

A HUNDRED BORDER PERENNIALS

In Twenty Specially Selected Kinds for Each Location

The finest of the new and older perennials. These collections will give you colorful blooms from spring to frost. Any of them can be grown easily in ordinary garden soil, and are hardy and dependable anywhere. Most of them are exceptionally good as cut-flowers. The plants sent out in these collections will be sturdy, 2-year-old, transplanted plants, and should bloom beautifully this season. \$18.00 postpaid.

GROUP I

For Sunny Locations

Key Five Plants of each variety

- 1 Chrysanthemum, Autumn Lights
- 2 Liatris pycnostachya
- 3 Campanula persicifolia
- 4 Aster, Harrington's Pink
- 5 Chrysanthemum, Symphony
- 6 Delphinium Belladonna
- 7 Chrysanthemum, Algonquin
- 8 Shasta Daisy, Supreme
- 9 Pyrethrum, Single and Double, Mixed
- 10 Phlox, Lilian
- 11 Aquilegia, Mrs. Scott Elliott's Strain
- 12 Phlox, Miss Lingard
- 13 Anthemis, Perry's variety
- 14 Phlox, Border Queen
- 15 Coreopsis auriculata nana
- 16 Veronica, Blue Spire
- 17 Iberis sempervirens
- 18 Stokesia, Blue Moon
- 19 Dianthus, Bobby
- 20 Gypsophila bodgeri

You may substitute any of the following on this group if you wish: Gaillardia, any variety; Platycodon, any variety; Pentstemon, Garnet; Salvia Pitcheri; Aster, any variety.

GROUP II

For Partly Shaded Locations

Key Five Plants of Each Variety

- 1 Chrysanthemum, Autumn Lights
- 2 Liatris pycnostachya
- 3 Lythrum virgatum
- 4 Aster, Harrington's Pink
- 5 Anemone alba
- 6 Delphinium Belladonna

- 20 Hemerocallis, Dr. Regel

You may substitute any of the following on this group if you wish: Mertensia virginica; Anemone sylvestris; Cimicifuga racemosa; Doronicum excelsum; Funkia variegata.

Two Of The Nation's Leading Fertilizers

AGRICO

BE A

'PROFESSIONAL AMATEUR'

Take a tip from leading professional growers. They use fertilizers specially formulated for each crop, because each crop feeds differently. Same thing holds for the home garden. That's why we offer TWO Agricos for the home garden — two different formulas, for two different jobs: one, Agrico for Lawns, Trees & Shrubs . . . the other, Agrico for Gardens. Try some Agrico and see the difference.

TO OUR CUSTOMERS AND FRIENDS: With much gratitude, we wish to thank and express our greatest appreciation for the generous support you have rendered for the past several years to help make Carroll Gardens a success. We are, indeed, very grateful for this. We take great pleasure in presenting you our 1941 catalogue, in which we think we list one of America's finest and most up-to-date collection of perennials and rock-plants that are not too difficult to grow. We also have tried to include some of the world's finest new roses, some of the best and unusual varieties of shrubs, evergreens, etc.

The plants we send out will be as usual, first-quality products, and at any time you should receive anything from us that is not satisfactory to you, we want you to tell us so, because we are always ready to correct our mistakes at our expense. We are always willing to make any reasonable adjustment.

A CORDIAL INVITATION: Plan to visit our gardens this coming year. Our large, formal garden is really a glorious sight from early spring until late fall. Our new, large rock-garden and Lily pool has been very attractive this past season, and should be more so this coming season. Regardless of when you come during the growing season you will always find some new, unusual plants of real interest. We have close to 2000 varieties of various kinds of flowers, shrubberies, roses, etc., and each year we always try out many novelties.

LOCATION: The gardens are located on U. S. Route 140, at "Fairground Hill," on the southern edge of Westminster. We are only 28 miles from the city of Baltimore and 22 miles from historic Gettysburg, Pa.

YOUR GARDEN PROBLEMS: We are always ready and willing to render service to the best of our knowledge to help you solve any of your garden problems. Estimations and suggestions are gladly rendered without charge. We also realize this is a rather long list of plants and if you should have any difficulties in making selections of what you need, we will be glad to help you select the best varieties for your purposes.

This catalogue does not cover everything we grow, but only such stock as we have a fair supply to offer. Correspondence is invited regarding other kinds not listed.

GUARANTEE: We guarantee any plant we sell to be true to name and to reach you in fresh, healthy condition. We will replace or refund the money paid for such items that prove not to be as represented.

TERMS: Cash or satisfactory reference must accompany all orders from parties unknown to us. 3% discount for cash with order; 2% 10 days; 30 days net; 6% interest charged after 60 days from date of invoice. Complaints if any, must be made in writing to us within five days after receipt of goods.

TRANSPORTATION: We will prepay all transportation charges on perennials and dormant roses east of the Mississippi; west of the Mississippi, please add 10% to the amount of the order. All shrubs, evergreens, trees, potted roses, etc., will be shipped either parcel post or express collect. No shipping order will be accepted for less than \$2.00.

EXPLANATION

Practically all perennials and rock plants offered are one and two-year, transplanted, field-grown, with the exception of some varieties which are strong pot grown.

Nearly all varieties of perennials and rock plants offered in this catalogue, except where noted will grow nicely in ordinary, well-drained and well-prepared garden soil with full sunlight or where they get the sun the best part of the day. Morning sun is preferred wherever possible.

*Indicates alpine or rock plants, and with the exception of a few varieties, they can also be used in front of the perennial border.

†Indicates varieties suited for cutflowers.

TIME OF SHIPMENT: Regardless of when your order is received plants will be shipped at the proper planting time for your locality. Some varieties of plants are best transplanted at a certain time of the year, and we reserve the right to hold shipment of that part of your order till the proper planting season for such varieties which may be included in your order.

SPECIAL TRIAL OFFER

You may select one each of any twelve varieties of perennials or rock plants listed at 20c each; all 12 for only \$2.00, prepaid.

Carroll Gardens are under the General Management of P. Donofrio ("Patsy"). You may inquire of any one in Westminster or elsewhere to whom he is known, in regard to his character and his twenty years of practical knowledge of Plants.

Order early and you'll gain in many ways; special 5% discount on early orders, if you send your order in before March 10th, 1941, you can deduct 5% from the amount of the order. Why not take advantage of this special discount and send your order in before March 10th.

Prices on all Japanese Anemones 25c each, 3 of any one kind for 60c. \$2.25 per doz.

5 varieties illustrated in color on back cover.

Alba. Single white.

Alice. Silver rose suffused carmine; semi-double.

Marie Manchard. A fine new semi-double white, early flowering. A fine improvement over white varieties.

Margarete. A very fine new variety with double dark pink flowers.

Queen Charlotte. Semi-double pink.

September Charm. New lovely single silvery rose flowers; in full bloom about the middle of September. A good grower and very free flowering, 2 to 2½ ft. high.

September Queen. New, A desirable variety with semi-double flowers of appealing, rosy-red, erect habit. A very free bloomer; 2 feet high; in full bloom by September 15th.

***September Sprite.** New. A lovely miniature Anemone resembling *Hupehensis*, but smaller and more dainty. A free bloomer and neat compact habit, 12 inches high. A charming rock plant for late summer blooms.

Richard Ahrends. Large, shell-pink flowers with lilac-hue.

Rubra. Semi-double red.

Whirlwind. Double white.

ANTHERICUM (St. Bernard's Lily)

‡**Ramosum.** Grass-like foliage and lovely, small, lily-like white flowers. Blooms during June and July; 18 inches high; partial shade or sun. 35c each, 3 for 90c

AQUILEGIA—Columbine

‡**Caerulea.** The Rocky-Mountain blue Columbine. 25c each, 3 for 60c

‡**Caerulea Blue King.** New improved form. 30c each, 3 for 75c

(Aquilegia cont. next page)

AQUILEGIA—Cont.

**Canadensis*. Our native Columbine with reddish-orange flowers; May-June; 15 to 18 inches high.....20c each, 3 for 50c

‡*Clematiflora*. A glorious new distinct Columbine. The blooms are spurless and greatly resembles the Clematis flowers. They bloom very free at the same time as the other Columbines. The color range includes delicate pastel shades of various colors. 2 feet high.
30c each, 3 for 75c

‡*Chrysanth*. The fine popular long-spurred yellow Columbine; choice and free blooming; 2 to 2½ feet high.....20c each, 3 for 50c

‡*Chrysanth* Silver Queen. A good pure white, longspurred Columbine.....25c each, 3 for 60c

‡*Crimson Star*. A novelty of outstanding merit; large flowers with crimson sepals and spurs and white petals.....25c each, 3 for 60c

‡*Dobbies Imperial Hybrids*. Considered by many the finest strain of long-spurred Columbine.
20c each, 3 for 50c

‡*Rose Queen*. Pretty longspurred pink Columbine.....20c each, 3 for 50c

**Flabellata nana alba*... Lovely dwarf species, attractive foliage and ivory white flowers in May-June; 12 to 15 inches.....20c each, 3 for 50c

**Helenae*. A very lovely dwarf variety somewhat resembling the *Flabellata*, except the flowers are very attractive medium blue shades which show a very effective white center. A very choice Columbine for the rock garden or the perennial border; 12 inches high.
30c each, 3 for 75c

‡*Hensol Harebell*. A beautiful vivid blue species, attaining a height of about 2 feet, making splendid display from early May to June. Short spurs.....20c each, 3 for 50c

‡*Longissima*. A rare North American species, delicate pale yellow flowers with very long spurs; often 4 inches long.....35c each, 3 for 90c

‡*Longissima Hybrids*. A new strain containing all the beautiful hues in: red, blue, white, rose, etc., of the popular strain of Mrs. Scott Elliott, with extra long spurs nearly as long as in the *Longissima* type. Broad petals. This should make an outstanding new strain of Columbine. They are also harder and more lasting than *Longissima*.....50c each, 3 for \$1.25

‡*Mrs. Scott Elliott*. Another fine strain of the long-spurred Columbine.....20c each, 3 for 50c

ARABIS—ROCK CRESS

**Alpina Rosebella*. A really pink Arabis that will appeal to every one. Compact growing and very lovely.....30c each, 3 for 75c

**Alpina Fl. Pl.* Pretty, double, white flowers; April-May; 12 inches high.....25c each, 3 for 60c

**Ferdinand Coburg*. A rare low Arabis of very compact habit; covered with white flowers in early spring. Very distinct. 30c each, 3 for 75c

**Kelleriri*. A distinct little Arabis; very compact growing; gray foliage and lovely white flowers on 3 to 4 inch stems.
30c each, 3 for 75c

**Procurens*. A fine ground cover; white flowers on 8 to 10 inch stems in early spring; distinct pretty green foliage.....25c each, 3 for 60c

ARENARIA—Sandwort

**Montana*. A fine rock plant with showy large white flowers during May-June; 6 inches high.
20c each, 3 for 50c

ARMERIA—Thrift

**Caespitosa*. Tufts of dark green leaves covered with lovely pale, pink flowers in spring, only 1-2 inches high. Rare.....30c each, 3 for 75c

**Caespitosa alba*. A new white form. 4 in. high.
35c each

**Caespitosa Hybrids*. More robust and having larger flower heads on longer stems than above variety. Lovely shades of pink, blooming very free in May.....25c each, 3 for 60c

**Cephalotus Rubra*. Large heads of deep, pink flowers freely produced in May-June; 10-12 inches high. We consider this variety the showiest.....25c each, 3 for 60c

*‡*Formosa Hybrids*. Tall, wiry stems with extra large flower heads of various pink and red shades. Fine for cutting. June flowering. 12 to 15 inches high.....20c each, 3 for 50c

**Lauchiana*. Rosy flowers on 4 to 6 inch stems blooming freely in May-June. 20c each, 3 for 50c

**Maritima*. A lavender-pink form of the above.
20c each, 3 for 50c

ARTEMESIA—Wormwood

‡*Silver King*. A fine foliage plant which is much used for cutting. May be dried to be used as an everlasting.....20c each, 3 for 50c

‡*Lactiflora*. A very tall variety with Babys-breath-like white flowers. July to September flowering. 5 ft. high.....25c each

ARRHENATHERUM—Oatgrass

**Bulbosum variegatum*. A dwarf decorative grass of tufted habit, growing only 8-10 inches high.....20c each, 3 for 50c

ASCLEPIAS—Butterflyweed

Tuberosa. Large heads of brilliant orange flowers. In bloom June-July; 18 to 24 inches high.
20c each, 3 for 50c

ASPERULA—Woodruff

**Cynanchica*. A nice creeper with blush pink flowers. Blooms all summer.....20c each, 3 for 50c

Aster--Hardy Aster

Various species and Hybrids

- ***Acris nanus.** A pretty distinct species, neat compact bushes, covered with lavender-blue flowers in late August and September; 12 inches high.....25c each, 3 for 60c
- ***Alpinus.** Large lavender-blue flowers on 6-8 inch high stems; May-June flowering.
20c each, 3 for 50c
- ***Alpinus albus.** A white flowering form of the above.....20c each, 3 for 50c

Grandiflora Superba. Lilac-rose flowers and close tufty foliage, blooming in June-July; 18-24 inches high.....30c each, 3 for 75c

BOLTONIA—Starworth

‡**Asteroides.** Small white daisy-like flowers in late summer; 4 to 5 feet.....20c each, 3 for 50c

‡**Latisquama.** Pink form of the above.

20c each, 3 for 50c

Bleedingheart. See Dicentra.

CALLIRHOE—Poppy Mallow

***Involucrata.** One of the best trailers for the large rockery; the plant is covered with rich crimson poppy-like flowers all summer.

20c each, 3 for 50c

CAMPANULA—Bellflower

***Carpatia.** Large blue flowers on compact small bushes; in bloom all summer; 8-10 inches high; fine for rockery and front of border.

20c each, 3 for 50c

***Carpatia alba.** A lovely white flowering form of the above.....20c each, 3 for 50c

***Carpatia Convexity.** Flowers medium mauve blue, with distinct markings on the divisions. Perianth somewhat reflexed in form. All summer flowering.....35c each, 3 for 90c

***Garganica.** Low spreading tufts covered with starry light blue flowers. A gem for wall and rockery; May-June flowering

25c each, 3 for 60c

Glomerata. Close heads of striking blue flowers, blooming freely in June-July; 18 inches.

25c each, 3 for 60c

(Campanula cont. next column)

‡**Violetta.** A new, deep, violet-purple; the darkest yet; sturdy grower; 4 ft. in height.

50c each, 3 for \$1.25

ASTRAGALUS—Milk Vetch

***Vicifolius.** Prostrate stems clothed in ferny leaves; lavender-pink, pea-flowers for long time in the spring. Something rare and of easy culture. Sun or part shade.

35c each, 3 for 90c

CAMPANULA—Cont.

***Muralis.** Dense tufts covered with lovely purple-blue flowers; June-July. It prefers little shade.....30c each, 3 for 75c

***Poscharskyana.** A choice variety blooming off and on all summer; lovely starry-blue flowers, related to Garganica but easier to grow.

25c each, 3 for 60c

***Pseudo Raineri.** Very large blue flowers on 4 inch stems; blooming freely during summer months; very lovely.....30c each, 3 for 75c

‡**Persicifolia Blue.** Large pale blue saucer-shaped flowers on 3 feet stems. June-July.

20c each, 3 for 50c

‡**Persicifolia alba.** A white form.

20c each, 3 for 50c

‡**Persicifolia alba Fl. Pl.** A double white flowering form of the above.....35c each, 3 for 90c

‡**Persicifolia Telham Beauty (True).** Very large open cup-shaped flowers. The color is of lilac-mauve; 3 to 4 ft.....40c each, 3 for \$1.00

‡**Persicifolia Blue Spire.** The finest double blue peach leaf bellflower; 2 to 3 feet high. June-July flowering.....35c each, 3 for \$1.00

Persifolia Summer Skies. New, light blue, cup and saucer-like flowers. 3 ft.....50c each

‡**Persicifolia Wedgewood.** A grand new variety. Extra large violet deep blue flowers. Grown from the originators seed.40c each, 3 for \$1.00

***Rotundifolia.** The well known blue bells of Scotland, blooming very freely from late June to September. 12 inches high.

20c each, 3 for 50c

***Rotundifolia Purple Gem.** New, deep purple-blue flowers; very free bloomer. 12 inches.

30c each, 3 for 75c

***Sarmatica.** A fine Campanula for Rockery or the hardy border; pale-blue flowers during summer months. 12 inches high.

25c each, 3 for 60c

***Turbinata Blue Gem.** A lovely "seedling" of our own, growing 4 to 5 inches high and completely covered with bright blue cup-like flowers, blooming the entire summer. A charming little plant. We recommend it very highly.

30c each, 3 for 75c

***Turbinata White Gem.** A very lovely white form of the above.....30c each, 3 for 75c

‡**Medium Canterbury Bells.** Mixed or separate colors.....20c each, 3 or 50c

‡**Calycanthemum (Cup and Saucer).** Pink, white, Blue or Mixed.....20c each, 3 for 50c

CARNATION—Hardy

- ‡**Crimson King.** New, dazzling double crimson flowers, in bloom from late spring to fall. 18 inch stems.....25c each, 3 for 60c
- ‡**Douglas Strain.** It has extra large double flowers on strong stems; various shades of pink, red-white, variegated, etc. 40c each, 3 for \$1.00
- ‡**Hardy Border Mixed.** Grown from seed various shades, double and single mixed. 20c each, 3 for 50c

CATANANCHE—Cupid's Dart

- ‡**Caerulea.** Grayish foliage. Centaurea-like sky blue flowers with deep blue center. June to July; 2 feet.....20c each, 3 for 50c
- ‡**Caerulea Major.** An improved novelty with large flowers; blooming freely from June to late August.....50c each, 3 for \$1.25

CENTAUREA—Cornflower

- ‡**Dealbata.** Striking rose-pink flowers in June-July; 18 inches high.....20c each, 3 for 50c
- ‡**Macrocephala.** Large golden-yellow flowers on erect 2½ to 3 feet stems; blooms June-July, fine for cutting.....25c each
- Montana (Perennial Cornflower).** Large deep blue flowers blooming freely late May and June; 18 inches high.....20c each, 3 for 50c

CEPHALARIA—Giant Scabiosa

- ‡**Tatarica.** Large creamy-white flowers in July; 4 to 5 feet high.....20c each, 3 for 50c

CERASTIUM—Snow in Summer

- ***Alpinum Lanatum.** A rare little Cerastium with distinct woolly gray foliage covered with white flowers in late spring. 4 inches high. Plant in well drained and sunny spot in the rock garden.....25c each, 3 for 60c
- ***Columnae.** A lovely form; it doesn't spread all over like Tomentosum, compact silvery foliage and large white flowers on 4 inch stems. 20c each, 3 for 50c

CHAMAEMELON

- ***Oreades.** Something different, foliage fern-like, about 4 inches high. White daisy-like flowers. Very fine evergreen foliage; blooms freely in early summer. Does well in sun or part shade; an excellent ground cover.....25c each, 3 for 60c

CHELONE—Turtle-head

- Lyoni.** Heads of purplish red flowers; it starts to bloom in late August to early October; about 2 feet high. Does well in sun or shade. 25c each, 3 for 60c

Chrysanthemum--Hardy Garden Varieties

Carroll Gardens offers you one of America's finest and most up-to-date collections.

Three New Sensations of 1941

Eugene O. Wander. A big, brilliant, glistening golden-yellow beauty, flowering so freely that the stocky growing plant is almost obscured by its branching clusters of big double flowers—each one the height of perfection in form. Plant seldom exceeds eighteen inches and is in full flower by September 20th—therefore valuable where earliness is important. It is a hardy, easily grown variety, requiring no pinching or special handling to produce flowers 4½ to 5 inches across or larger if disbudded. Fine also for pot culture. NOTE: Occasional plants assume bronzy-yellow tints, but are just as attractive.....75c each, 3 for \$2.00

Mrs. Pierre S. Dupont III. The quality of iridescence is so pronounced in this fine new chrysanthemum that accurate description is difficult. The dominant shade is a soft peach tinted with rose-salmon and fawn shades; the whole overcast with an indescribably luminous sheen. It is entirely distinct and altogether lovely. The large, full perfectly formed flowers are carried on tall branching stems, mak-

ing a strong, sturdy, 2½ foot plant. In full flower in early October; it will prove a grand addition to the garden and a valuable cut flower variety.....75c each, 3 for \$2.00

Milky Way. A magnificent creamy-white that is outstanding among all white kinds; first for the remarkable intensity of its milky white color in the open flower; again for its rich dark green foliage which contrasts so effectively with the soft lemon tints of the opening flower, creating an effect distinctly different from that of any other white variety. Blossoms are of the semi-double informal type, with broad overlapping petals and carried in branchy sprays of 5 to 6. Unusually hardy as a plant, the open flower is remarkably frost resistant—a valuable trait where early frosts may injure the opening flower particularly on white kinds. A strong vigorous plant 2½ to 3 ft. in height, flowering in late September. 50c each, 3 for \$1.40

One each of above 3 novelties for \$2.00. One Dean Kay, Free with this collection.

OUTSTANDING 1940 NOVELTIES

Acacia. A profusion of small, glittering, delightfully fragrant yellow blossoms completely cover the plant in late September, and remain fresh and attractive long after other kinds have been destroyed, due to a remarkable degree of frost resistance. The blossoms, slightly over one inch across, are flat, semi-double, sulphur-yellow and exceptionally brilliant. Height 2 feet. Late September.....35c each, 3 for 90c

Autumn Lights. Departing from the conventional 'mum type, this latest addition will ap-

peal to all who appreciate autumnal color. Masses of coppery bronze semi-double blossoms, with a gleaming orange tone which illuminates the bronze tints, two inches or more across, completely cover the compact, branchy plants. It is conspicuously different from all kinds in this color. Healthy, dark green foliage plus unusual hardiness derived from Chrysanthemum Arcticum, the parent strain, are among its desirable qualities. Height 18 inches. Late September.....35c each, 3 for 90c

(Chrys. cont. next page)

Chrysanthemum 1940 Novelties--cont.

Dean Kay. A vigorous, new, very hardy "mum". Very early and extremely free blooming. Makes a plant about four feet in diameter. A veritable mound of pink. Needs no staking. Does not show faded flowers. Excellent for landscape planting. Attractive color with low bushy, Compact growth. Try it!

40c each, 3 for \$1.00

Early Wonder. One of the finest new hardy Chrysanthemums introduced in years. It is in full flower in late September and on. At first opening the flowers are dainty dawn and baby pink blending to peach blossom pink when fully open. The individual flowers are 2-3 inches, and have remarkable substance. Very prolific in bloom. It deserves a place in every up-to-date garden.....40c each, 3 for \$1.00

Gleam O'Gold. Aptly named, this splendid primrose-yellow pompon fairly gleams in the autumn sunlight. Carrying quantities of substantial double flowers, three inches or more across, on strong branchy stems. It is a sturdy plant with attractive healthy foliage for grouping in clusters in the garden or hardy border. Height 2 feet. Blooming October 1st.

35c each, 3 for 90c

Goblin. Unusual is this pompon in that it is actually graceful in its habit of flowering rather than formal as are the pompon kinds. The airy branching habit which characterizes the plant has in part been captured from its Korean ancestor. The blossoms perfectly formed, two inches across, are so nicely placed that each flower stands out distinctly notwithstanding its free-flowering qualities. The color is a splendid warm bronze shading to sparkling gold in the open flower. A distinct and lovely addition to this popular type. Height 2 feet.....35c each, 3 for 90c

THREE LOVELY SPOON CHRYSANTHEMUMS

Either of the three 30c each, any 3 for 75c, \$2.50 dozen.

Pink Spoon. Dainty single flowers of a light rose or shell-pink. The petals are tubular for most of their length, flattening out near the tips so that each petal really assumes the shape of a miniature spoon.

White Spoon. New beautiful white form.

Yellow Spoon. New yellow. Very lovely.

DOUBLE OR ASTER FLOWERED CHRYSANTHEMUMS

Prices on all double varieties 25c each, any 3 for 60c, any 6 for \$1.10, \$2.00 per doz.

Aglow. Double flowers of deep, bright, orange color. Very brilliant.

Algonquin. Showy clear yellow, double flowers 2½ inches across. Dwarf, spready habit. Height, 1½ feet. In full flower September 10th.

Caliph. Ox-blood-red, with rich velvety sheen or glow so prominent that it stands out conspicuously among all other Chrysanthemums of this color. Remarkably free in flowering. Height 2½ feet. In full flower October 10th.

Cydonia. Brilliant double orange-mahogany of medium size. Rare and fetching color.

(Double Chrys. cont. next page)

Manantico. An early, red, semi-double flower that is unusually bright and effective. It blooms from early September until frost. Plant grows 18 inches tall.....30c each, 3 for 75c

Muskogee. A new and unusual cushion "mum". The flowers are red in bud opening to a lovely pink color, therefore, giving an attractive red and pink color combination on the same plant.

40c each, 3 for \$1.00

Pohatcong. A lovely, double, deep pink flower. 3-4 inches across, with rich dark green foliage. Long blooming period-starts in early September. Vigorous growth. 24 inches tall.

25c each, 3 for 60c

***Pomponette.** Diminutive in habit, this charming addition grown primarily for pot culture, will none the less be a valuable garden variety from New Jersey south, where winter conditions are not too severe, because it is in full flower by mid September. Shading from warm bronze in the bud stage to clear primrose-yellow when fully open, it presents a striking color combination. The bud and flower formation is so perfect that further improvement seems impossible. Not over one foot in height, the compact well-rounded plant requires no pinching, staking, or disbudding whether grown in pots or in the garden.....35c each, 3 for 90c

Special Offer

One each of 10 1940 Novelties for only \$3.00

Two each of 10 (20) plants for only.....\$5.50

Three each of 10 (30) plants for only.....\$7.50

CHRYSANTHEMUM Rubellum

Two choice varieties

CLARA CURTIS. New. The single salmon-pink, daisy-like flowers are about three inches in diameter and are at their best in August and early September. They are well arranged and bloom so early that they are never damaged by the frost.....50c each, 3 for \$1.25

Anna Hay. A new light pink form of Clara Curtis. Large single, flesh-pink flowers with yellow center.....40c each, 3 for \$1.00

Golden Charm. Double golden-yellow; free flowering.

Granny Scovil. Well-formed fluffy flowers are fully 4½ inches across; the color is a glowing, clear, warm coral-bronze, very attractive. In full bloom by October 10th; height 2 feet.

Indian Summer. Large double glowing orange flowers, the unfurled central petals add a luminous golden-orange reflection, sturdy erect growth and free flowering. Flowers are 3 inches across, to 2½ feet high. Start to bloom October 15th.

Jean Treadway. Large flowers; lovely sparkling pink with a dark rose center. In full bloom September 30th.

Double Chrysanthemum--cont.

King Midas. In profusion of flowers, there is no double hardy Chrysanthemum comparable to this lovely newcomer. The plants are literally covered with flowers for a very long period, commencing in late September and continuing throughout October. The flowers average 4 inches in diameter, are fully double, and a charming shade of soft yellow with the faintest bronze shadings appearing occasionally.

Lavender Lady. The silvery lavender flowers are 3 inches or more across and appear in perfect branching sprays. Unusually hardy. Height 2½ feet.

Marie Dupont. Large double white; very dwarf, only about 15 inches high.

Mrs. Sam P. Rotan. A perfectly double flower of brilliant golden-yellow, shading to deep orange. Compact and free. One of the most striking.

Pale Moon. Delightful, fluffy, sulphur-yellow blossoms completely cover the plant. Loosely double flowers, 2½ inches across of excellent keeping quality. Starts blooming in September.

Pohatcong. A lovely, double, deep pink flower, 3-4 inches across, with rich dark green foliage. Long blooming period—starts in early September. Vigorous growth—24 inches tall.

Rapture. No Chrysanthemum has received more praise than this colorful variety. The double flowers are a deep orange-bronze with a suffusion of carmine.

R. Marion Hatton. Bright canary-yellow, free blooming and early.

SINGLE KOREAN CHRYSANTHEMUMS OR DAISY MUMS

All single Mums 25c each, any 3 for 60c, any 6 for \$1.10, \$2.00 per dozen.

Arcturus. Large compact vigorous amber or honey-yellow single variety of a most unusual and attractive color.

Astrid. The single daisy-like flowers are three inches or more in diameter, and are a lovely shade of shell-pink, warmed with old rose tints, with a bright yellow center. The plants have attractive light green foliage, not bothered by diseases or insects.

Autocrat. Single bright orange-scarlet flowers with a golden yellow halo. Extremely profuse.

Elegance. Large flowers of a violet tyrian rose color. Single. Very good.

Fortuna. Very vigorous plant of medium height covered with unique curly petalled ox-blood-red flowers which measure 3 to 4 inches in diameter. Of very striking appearance.

Harvester. Particularly attractive single orange-scarlet flowers of good size. Blooms very freely.

Hebe. Lovely, luminous pink which assumes soft lavender-pink tones as the flower matures. The golden-yellow center affects a lovely combination in the nicely formed single blossoms which average 3 inches or more across, producing masses of fragrant blossoms in almost unbelievable quantities during late September and through October. Height 2 to 2½ feet.

Lovelight. Large pale pink duplex flowers on a vigorous plant.

Roberta Copeland. Quantities of medium-sized semi-double flowers on short, branching stems. The color is bright rose-red, later shading to a rose and salmon-gold—a unique combination. Height 1½ feet. In full flower September 15th.

Ruth Hatton. Small double ivory white flowers. Early.

Seminola. Similar to Algonquin but a nice cream-white. Height, 1½ feet. September.

Silver Tips. A very unique, free flowering variety. The double blooms are bright carmine with the tips and reverse of the petals silvery white.

Sun God. A very showy late variety with large ball-shaped flowers; the color is bronzy-gold and very attractive.

Symphony. Mauve-rose overcast soft coppery rose, with the sheen of a damask silk, would describe the dominant colors of this new variety. The flower in maturing acquires silvery lilac and faint coppery tones, very lovely but elusive and impossible to describe with accuracy. The flowers are large, 3 inches across, double, nicely formed, and carried on heavy, sturdy stems; Height 3 ft.

Tasiva. Lovely, large, dwarf white. Early.

The Moor. Greatly admired by many who fancy this particular color, best described as amaranth-purple or portwine-red. It is noted for its intensity and brilliance in the garden. Flowers 3 inches across, double. In full flower in late September. Height 2 feet. Very hardy.

White Doty. A fine white pompon; 3 feet high.

Louis Schling. Another splendid new variety that should find a place in every collection, flowers are 3 inches across with three or four rows of petals, fluffy and distinct in appearance; glowing salmon-red in color, changing to lovely soft bronze-salmon as the flower matures, healthy and free flowering.

Mongolian. Single flowers of deepest penetrating yellow. Very striking.

Nancy Copeland. Spectrum-red color. The strong upright plant is completely covered with branching sprays of large, single flowers 3 to 3½ inches across; attaining perfection in late September. 2 to 2½ feet.

Niobe. A vigorous variety of compact, dwarf habit. The flowers are over 2½ inches in diameter. They are a glistening white with yellow disc. Produced in truly astonishing quantities.

Nysa. A large, rather tall, upright grower, 2½ to 3 feet in height. Producing a great abundance of showy, single, clear rosy-lilac blooms measuring 3 inches in diameter.

Orange Wonder. Deep coppery orange, single, free and vigorous.

Psyche. Lovely shell-pink single flowers, 4 to 5 inches in diameter; carried on strong stems. A vigorous grower.

Red Hussar. Duplex flowers of brightest scarlet-crimson on bushy, compact plants. One of the most brilliant.

(Single Chrys. cont. next page)

Single Chrysanthemum--*cont.*

Rosamund. Large pale violet-rose duplex. Very attractive color.

Saladin. A startling addition to the single varieties—best described as Chinese or Oriental red, shading to coral-red with coppery tones showing on the petal reverse. The individual blossom, 2 inches or more across, is substantial, having four rays of petals. It is a vigorous growing variety, producing branching sprays of delightfully fragrant blossoms. Height 2½ to 3 feet. In full flower October 1st.

Sappho. Compact, dwarf plant covered with good sized single pure yellow flowers.

Saturn. Brilliant sparkling orange and bronze, with golden-yellow center, robust branching habit, the single flowers are almost 3 inches across. 2 to 3 feet late September. Very good.

BUTTON CHRYSANTHEMUM

Any of the Button Mums 25c each, any 3 for 60c, any 6 for \$1.10, \$2.00 dozen.

Capt. R. H. Cook. Pompon flowered variety, clear, deep, rose colored petals are tipped golden-bronze; a tall grower.

Early Bronze. Very early small flowering pompon.

Jewel. Very popular pink button; rather tall grower; long cutting stems.

Judith Anderson. New garden Pompon, the flowers are small, about 1½ inches across, well rounded in form. The color is clear buttercup-yellow; effective in the garden or flowered as a pot-plant. It is of dwarf bushy habit, being in full bloom by early October.

***AZALEA OR CUSHION MUMS** and similar varieties that are low growing and bloom at about the same time.

All Cushion Mums, except where noted 25c each, any 3 for 60c, any 6 for \$1.10, \$2.00 dozen.

Pink Cushion. A lovely very dwarf "mum", completely covered with double pink flowers from July on. Splendid for rockery and borders; about 12 to 15 inches high.

Bronze Cushion. Bronze form of the above.

Red Cushion. New early form (Santa Claus)
35c each, 3 for 90c

White Cushion. A fine white.

Yellow Cushion. Splendid yellow.

***Little Bob.** A charming, new Cushion "mum". Hundreds of small mahogany-bronze double button-like flowers. Truly a beautiful new plant you'll want to try.....40c each, 3 for \$1.00

Pomponette. Diminutive in habit, this charming addition grown primarily for pot culture, will none the less be a valuable garden variety from New Jersey south, where winter conditions are not too severe, because it is in full flower by mid September. Shading from warm bronze in the bud stage to clear primrose-yellow when fully open, it presents a striking color combination. The bud and flower formation is so perfect that further improvement seems impossible. Not over one foot in height, the compact well-rounded plant requires no pinching, staking, or disbudding whether grown in pots or in the garden.

35 each, 3 for 90c

Sensation. Single yellow with every petal tipped scarlet. Very showy and reliable.

Stellaris. Large single buttercup yellow. Very graceful and vigorous.....25s each, 3 for 60c

Thalia. This forms compact bushy plants, 18 to 24 inches in height, covered with lovely duplex flowers of a lively orange shade. The blooms are exquisitely formed.

The Chief. An extremely attractive semi-double variety of large size. Bright scarlet and gold.

Venus. Single lilac-pink with rose-lavender shading flowers are 2½ inches across, with three or four rows of petals, starting to bloom in late September. Height 2½ feet.

Vesta. A plant of medium height and great vigor literally covered with deep golden orange flowers of duplex form. The individual blooms measure over 2½ inches in diameter.

Mrs. H. Harrison. Large, pink, button.

Ouray. The masses of blooms are a rich bronze, with a coppery glow, early and very hardy pompon.

***Pygmy Gold.** A distinct dwarf Korean Pompon type producing quantities of miniature blossoms slightly over 1 inch across. The color is a clear golden-yellow remarkable for its brilliance and intensity. Commencing to flower in August. It is easily the most colorful Chrysanthemum yet introduced. Unusual, also, because it retains its effectiveness right up until the season ends. Grouped in the rock-garden or hardy border or used for edging, it will prove the delight of the autumn.

Pygmy Gold. A distinct dwarf Korean Pompon type, producing quantities of miniature blossoms slightly over 1 inch across. The color is a clear golden-yellow, remarkable for its brilliance and intensity. It begins blooming in August. It is easily the most colorful Chrysanthemum yet introduced. Unusual, also because it retains its effectiveness right up until the season ends. Grouped in the rock garden or hardy border or used for edging, it will prove the delight of the autumn.

***White Gull.** A dwarf baby pompon not exceeding 12 inches. Growth very compact. Flowers produced in great abundance; pure white. 1 inch in diameter and is fully flowering in September.

Muskogee. A new and unusual cushion "mum". The flowers are red in bud opening to a lovely pink color, therefore, giving an attractive red and pink color combination on the same plant.
40c each, 3 for \$1.00

Dean Kay. A vigorous, new, very hardy "mum". Very early and extremely free blooming. Makes a plant about four feet in diameter. A veritable mound of pink. Needs no staking. Does not show faded flowers. Excellent for landscape planting. Attractive color with low bushy, compact growth. Try it.

40c each, 3 for \$1.00

Chrysanthemum Maximum Shasta Daisy

- Admiral Byrd.** It is similar to Beaute Nivelloise, except that the stems are a little stiffer and flowers slightly smaller; fine for cutting.
35c each, 3 for \$1.00
- ‡**Beaute Nivelloise.** A splendid new shasta, very large flowers with double row of attractive lacinated petals. Clear yellow center; blooming freely almost the entire summer. 18 to 24 inches high.....35c each, 3 for 90c
- ‡**Chiffon.** Frilled double row of narrow petals, the center is clear yellow, very dainty and distinct. 18 inches high.....35c each, 3 for \$1.00
- ‡**Esther Reed.** Fully double white flowers of good lasting quality. 3 to 4 inches in diameter, blooming rather freely throughout the summer and fall. A very outstanding new plant.
50c each, 3 for \$1.25
- ‡**Marconi.** A great novelty with extra large double flowers measuring 5 inches across. It blooms off and on all summer. It has strong 2-3 feet stems. True stock propagated from divisions; potted plants.....\$1.50 each
- ‡**Silver Star.** Fairly large, pure, white flowers from July to frost.....25c each, 3 for 60c
- ‡**Nobilis.** Semi-double flowers. Very free flowering. June to September.....56c each
- ‡**Spring Beauty.** A new, early, dwarf white; large daisies on 12 inch stems.....35c each
- ‡**Florists' Favorite.** A new, tall variety with large semi-double flowers on 2 ft. stems. July and August blooming.....35c each

35c each, 3 for 90c
- Champs Elysee.** Reddish purple. A good grower.....20c each, 3 for 50c
- Colonel Mangen.** Heavy trusses of brilliant rose-scarlet color.....30c each, 3 for 75c
- Count Zeppelin.** White with red center.
20c each, 3 for 50c
- Daily Sketch.** A splendid English novelty with very large salmon-pink flowers; with deep crimson center. Height 2½ to 3 feet.
25c each, 3 for 60c
- Enchantress.** Light rose-pink shaded salmon pink.....20c each, 3 for 50c
- Ethel Prichard.** French mauve, early in the morning and on cloudy days it looks almost as pale blue as Phlox divaricata.
25c each, 3 for 60c
- E. I. Farrington.** A good grower with salmon-pink flowers.....20c each, 3 for 50c
- George Stipp.** Deep glowing salmon with shaded lighter eye.....25c each, 3 for 60c
- Harvest Fire.** New brilliant salmon-orange color, on vigorous bush.....25c each, 3 for 60c
- Leo Schlagater.** Brilliant scarlet-red with orange cast. Very good.....25c each, 3 for 60c
- Lillian.** A beautiful cameo-pink with blue eye, strong grower.....25c each, 3 for 60c

Mary Louise. Pure glistening snow-white heads of unusually large size, the individual flowers are twice as big as in other white Phlox. A perfectly beautiful variety; unquestionably the best white to date. It is a good grower with clean foliage. Of medium height.....50c each, 3 for \$1.25

- Mia Ruys.** An outstanding dwarf, pure white Phlox. Clean healthy foliage.
30c each, 3 for 75c
- Milly von Hoboken.** A fine strong grower, extra large heads of bright pink flowers, with mauve suffusion. Very free flowering.
20c each, 3 for 50c
- (Tall Garden Phlox cont. on next page)

Tall Garden Phlox--cont.

Morning Glow (Morgenrood). A very distinct variety with large individual flowers, bright rose with deeper eye. Excellent grower.

25c each, 3 for 60c

Mrs. Jenkins. Pure white, late flowering, medium height.....20c each, 3 for 50c

Mrs. Harding. A fine new salmon-pink, good grower.....25c each, 3 for 60c

Mrs. Scholton. A beautiful and very attractive salmon-scarlet.....25c each, 3 for 60c

Nordlight. Rosy-pink with a touch of blue, deep red center. Very distinct.

25c each, 3 for 60c

P. D. Williams. Enormous flowers in pyramidal trusses, soft, rose-pink with darker center.

25c each, 3 for 60c

Painted Lady. Silvery pink with salmon shadings and cherry-red eye.....20c each, 3 for 50c

Rheinlander. An old variety but still very popular among the salmon-pink varieties.

20c each, 3 for 50c

Rosenkavalier. Large trusses of rose-red, robust stems and good green foliage, mildew resistant. Does not fade.....35c each

R. P. Struthers. Bright rosy-carmine flowers. A tall variety.....20c each, 3 for 50c

Saladin. Brilliant, orange-scarlet-red, overcast with salmon. Very sparkling color.

35c each, 3 for 90c

PHYSALIS—Lantern Plant

‡**Gigantea.** New, extra large pods.

25c each, 3 for 60c

PHYSOSTEGIA—False Dragonhead

Three Outstanding New Varieties

‡**Rosy Spire.** Similar to the following but a shade deeper in color, somewhat more compact in its inflorescence. It resembles Vivid, but attains a height of 3 to 3½ feet high September flowering.....30c each, 3 for 75c

‡**Summer Glow.** A new, tall variety with rosy crimson flowers. The flower spikes are often 18 inches long, making it a worth while plant for cut-flowers. Late August and September flowering. 3 to 4 feet high.

35c each, 3 for 90c

‡**Summer Snow.** Beautiful white variety. Blooms in August and September and makes a grand cut-flower. 3 feet high.

35c each, 3 for 90c

‡**Vivid.** A dwarf variety with large deep pink flowers. Blooming freely in September.

20c each, 3 for 50c

PLATYCODON—Balloonflower

Grandiflorum blue. Large blue flowers during summer months. About 2 feet high.

20c each, 3 for 50c

***Mariesi.** A dwarf variety of the above.

20c each, 3 for 50c

Salmon Beauty. New, rich, salmon-pink with white eye. Very beautiful.

40c each, 3 for \$1.00

Salmon Glow. Flame pink with salmon shade, softened with lilac and white tints at center. Truly a beautiful large salmon.

30c each, 3 for 75c

Silverton. Clear lavender, the nearest approach to blue yet; medium height and strong grower. Individual flowers are very large.

40c each, 3 for \$1.00

Starlight. Violet-red, shading to lilac, with prominent white center.....20c each, 3 for 50c

Snowcap. Extra large white flower, medium grower.....30c each, 3 for 75c

Thor. An old reliable variety with deep salmon-pink flowers.....20c each, 3 for 50c

Tigress. A splendid novelty with large trusses of salmon-scarlet flowers.....25c each, 3 for 60c

Von Lassburg. A tall white with large trusses and individual flowers, free flowering and good grower. A very fine variety. 20c each, 3 for 50c

Hardy Phlox Novelties available from September 1, 1941, on. Any of these at 35c each, 3 for 90c. We shall gladly furnish descriptions upon request.

Lady Ashtown

Potentilla—cont.

***Lady Rolleston.** Beautiful, new variety with double, orange-yellow flowers June-July; 12 inches high.....40c each, 3 for \$1.00

***Tonquei** One of the finest wall or rock plants, in bloom continuously from June to frost, the long trailing branches making lovely display with orange-apricot blooms with an orange-red center. Plant in well drained, rather poor soil in full sun.....35c each, 3 for 90c

***Tridenteta.** Shiny evergreen foliage and white flowers in the spring. 6 inches high.

20c each, 3 for 50c

***Verna Nana.** Also sold under the name of *Cinerea* and *Matsumurae*. A very compact growing plant covered with lovely golden-yellow flowers in May-June. Only 2 to 4 inches high.....20c each, 3 for 50c

Warrensi. A fine variety for the hardy border with large pure yellow flowers during summer months. 18 to 24 inches.....20c each, 3 for 50c

Primula--Primrose

All *Primula* are best planted in fairly rich moist soil and shade, however, many varieties of the *veris* type will get along nicely in full sun, if watered often during summer months.

Acaule. Lovely cream yellow flowers in very early spring. Only 3 to 4 inches high. A very profuse bloomer.....20c each, 3 for 50c

Acaule Blue. A lovely blue.....30c each, 3 for 75c

Acaule Rubra. Large brilliant crimson, a very free bloomer and a good grower; rare.
30c each, 3 for 75c

Acaule New Giant Flowering. A splendid new strain, with very large flowers of many different shades and colors.....25c each, 3 for 60c

Primula acaulis fl. pl., Madam Pompadour.

This novelty is light burgundy wine colored, each petal bordered with hairline white. Very double and free flowering, being a strong grower and much hardier than old type doubles \$1.00 each

Auricula Giant Hybrids. Unusual and distinct *Primula*. Large flowers on 6 to 8 inch stems; flowers come of various colors.

25c each, 3 for 60c

Cashmeriana. Large round heads of bright violet on 12-15 inch stems.....25c each, 3 for 60c

Bulleyana. A pretty *Primula* resembling the *Japonica*. The flowers are of beautiful orange shade. Late May and June flowering.

35c each, 3 for 90c

Cortusoides. A distinct species with heart-shaped leaves and lovely deep rosy-pink flowers on 10-12 inch stems.....25c each, 3 for 60c

Japonica. Large leaves and pretty flowers of various colors, coming in whorles on 18 to 24 inch stems.....25c each, 3 for 60c

Julia Hellenae. A fine form with burgundy-red flowers.....30c each, 3 for 75c

Julia Hyb. Primrose Lodge. Large deep crimson flowers on 4 to 6 inch stems. Free and early bloomer.....30c each, 3 for 75c

Julia Wanda. Deep bluish purple, almost violet. Very free blooming.....35c each, 3 for 90c

Sieboldi Hybrids. A showy species with large flowers of various shades; late May and early June, 8 inches.....30c each, 3 for 75c

Polyanthus (veris Polyanthus)

Kleyni. A strong grower with immense heads of rich, golden-yellow flowers, shaded apricot toward center.....35c each, 3 for \$1.00

Golden Star. A beautiful new *Polyanthus* with large heads of deep yellow flowers with orange center.....35c each, 3 for 90c

Monstead Giants Strain. Finest mixed.
20c each, 3 for 50c

M. G. Yellow.....25c each, 3 for 60c

M. G. Cream.....25c each, 3 for 60c

M. G. Red.....25c each, 3 for 60c

Polyanthus Giant Bouquet. New English strain, the introducer's description. A magnificent development of this old garden favorite, the flowers being of exceptional size, often 2 inches across. They are produced in great numbers and display an immense variety of colouring from white to cream, yellow, scarlet, purple and crimson. Borne on strong stems they are excellent for cutting, as well as making a splendid show in the garden.30c each, 3 for 75c

Veris Queen of Heaven. Grown from seed, various shades of blue.....30c each, 3 for 75c

Veris Duplex (hose-in hose). Most unusual variety; each individual flower has another inside it; flowers are of an attractive shade of yellow, 8-10 inches high.....30c eah, 3 for 75c

PULMUNARIA—Lungwort

***Angustifolia Azurea.** Low growing tufts of dark green foliage, with heads of deep sky-blue flowers. April-May.....35c each, 3 for 90c

***Angustifolia Rubra.** A fine new red flowering form of the above. Rare.....45c each, 3 for \$1.20

‡**Saccharata Mrs. Moon.** Very handsome new variety with silver and green spotted foliage. Salmon-pink and blue flowers. Blooms in early spring.....50 each

All *Pulmunaria* will grow fine in rather moist soil in sun or part shade.

Pyrethrum--Painted Daisy

BUDDLEIA—Butterfly Bush

Beautiful New Varieties

4 varieties illustrated in color.

Charming (The New Pink Butterfly Bush 5 ft.). A most outstanding, new plant which created a sensation when first exhibited. It was given the highest award, a silver medal, by the Pennsylvania Horticulture Society. Truly a glorious shrub, bearing throughout the late summer and autumn. Elegant long sprays covered with lovely lavender-pink blooms, which compared with other Buddleias introduced to date, are distinctly pink.....50c each, 3 for \$1.25

Eleanor. New. 5 ft. A shade deeper than Hartwegi.....50c each, 3 for \$1.25

Du Bonnet. New. 5 ft. The color is similar to Ile de France, with flower spikes more perfect. 50c each, 3 for \$1.25

Hartwegi (New Butterfly Bush. 6 ft. Hartwegi is undoubtedly the finest of all the flowering Butterfly Bushes. As a summer cut flower plant and as an ornamental lawn shrub it is unsurpassed in beauty and usefulness. The large bright lavender panicles have remarkable substance and harmonize in arrangement with other summer flowers. The flowers do not "sunburn" as do other varieties, and the tip flowers on the panicle open before the basal flowers have faded.....50c each, 3 for \$1.25

(Buddleia cont. next page)

BUDDLEIA—Cont.

Ile de France. 4 ft. A great variety, brilliant rosy-purple flowers with a violet suffusion, fragrant and free blooming; 3-4 ft. high. 40c each, 3 for \$1.00

Orchid Beauty. A splendid new variety of a soft cattleya-lilac color with a brilliant orange eye. Somewhat similar in color to the well known variety Fortune. It differs from this variety in its long tapering spikes, similar in form and size to the popular variety Charming. A real addition to the Butterfly bush.....60c each, 3 for \$1.50

Royal Purple. One of the finest, new Butterfly bushes introduced to date. Excellent growth, producing well formed plants 4-5 ft. high with broad, leathery dark green foliage. The flower panicles, which are entirely open at one time, are deep purple with an undertone of red, creating the appearance of very rich reddish violet purple. Under artificial light or in bright sunlight the color is strikingly beautiful. As a cut flower Royal Purple is unsurpassed. The general color tone is decidedly darker than in Dubonnet or Ile de France. 75c each, 3 for \$2.00

CALLICARPA—Beautyberry

Purpurea (Chinese Beautyberry). 4 ft. Pinkish flowers followed by violet-blue berries in September and October. 2 year old plants 15-18 inches.....40c each

CALYCANTHUS—Sweetshrub

Floridus. 5 ft. Purplish brown flowers in June-July. Fragrant. 18-24 inches.....40c each

CARYOPTERIS—Blue Spirea

Incana. A splendid late summer flowering shrub. The 3 feet compact bushes are covered with blue flowers.....35c each, 3 for 90c

CHIONANTHUS—Fringetree

Virginica (The White Fringetree). Large shrub or small tree-like plant. It can be used for lawn, specimen or massed with other shrubs. Showy racemes of pure white flowers in June. In the fall it has large blue berries which are attractive to birds. 1 year, 12 inch plants. 35c each

CYDONIA—Japanese Quince-Firebush

Japonica. 5 ft. Covered with bright scarlet flowers in the early spring. 2 ft. plants. 50c each

New Flowering Quince, 4 ft.

Five selected varieties: either variety 10-12 inches high, 1 year field grown plants, 65c each any 3 for \$1.65, 1 each of the 5 varieties \$2.50.

Columbia. Bright red flowers; fruit greenish yellow and very fragrant. Later than most varieties.

Grandiflora Rosea. Flowers large. At first lemon, tinted pink, deep rose when old. Fruit very large. Large bronze tipped leaves.

(Cydonia cont. next page)

CYDONIA—Cont.

Grandiflora Rubra. Early; very large deep red flowers. Probably the most popular one.

Moerloosei. Flowers pink and white. Late blooming. Low growing and of neat spreading habit.

Nivalis. Large, snow white flowers.

DEUTZIA

Gracilis (Slender Deutzia). 3 ft. A graceful, dwarf shrub completely covered with creamy-white flowers in the spring. 15-18 inch. 50c each

Pride of Rochester. 8 ft. tall variety, double white flowers. 2-3 ft. 50c each

ELSHOLTZIA—Mintshrub

Farquhari. This plant has the nature of the well known *Buddleia* growing about 24 inches high and producing large spikes of bright pink flowers in late summer and early fall. The entire bush, flowers and foliage, is sweetly scented. In addition to being conspicuous in the landscape, the plant is also outstanding for cutting and deserving of much more attention than ordinary plant material. Field plants.

65c each, 3 for \$1.65

ENKIANTHUS—Bellflower tree

Campanulatus (Redvein Enkianthus). 10 ft. A charming shrub; masses of bellshaped flowers, yellowish or pale orange, veined red in May. Bushy plants 12-15 inches. \$1.00 each

Cernus Rubens (Red Enkianthus). Crimson-scarlet flowers. It does not grow quite as tall as the above variety. A very choice plant. 10-12 inches. 50c each, 3 for \$1.25

EUONYMUS—Burningbush

Alatus (Winged Burningbush). 5 ft. Yellowish flowers in spring, red berries in early fall. The leaves turn to beautiful bronze-crimson color in the fall. 15-18 inch. 50c each

Alatus Compacta. 3 ft. New. A dwarf compact-growing form. Very beautiful autumn 8-10 inch. 35c each, 3 for 90c

FORSYTHIA—Golden Bell

Spectabilis (Showy golden bell). 8 ft. This is the best and showiest of the *Forsythia*. A blaze of gold in very early spring.

12-18 inch 25c each

18-24 inch 40c each

2-3 ft. 50c each

Intermedia nana. 4 ft. New Dwarf border *Forsythia*. 12-15 inch plants. 40c each, 3 for \$1.00

Ovata. 6 ft. The earliest *Forsythia* to bloom. A very hardy, recently introduced Korean species, with clear primrose colored flowers. 18-24 inches 50c each

FRANKLINIA—Gordonia

Alatamaha. 15 ft. A rare, small tree or large shrub. Starting to bloom in mid August and continuing till frost. Large gardenia-like white flowers. Very fragrant; foliage turns to beautiful rich warm color in the fall. 18 inch to 2½ ft. plants. \$1.50 to \$3.00 each

(Deciduous Shrubs cont. next page)

FUCHSIA—Hardy Fuchsia

Magellanica. 2 ft. Most interesting shrub. The ruby-red pedent flowers are freely produced all summer and fall. It is easily grown in part shade, and has proven entirely hardy in New York Botanical Garden. 35c each, 3 for 90c

Magellanica alba. 2 ft. New, white flowering form of the above. 35c each, 3 for 90c

Scarlet Beauty (Patent No. 440). This improved variety of hardy *Fuchsia* was originated in Painesville, Ohio, twelve years ago, and has proven hardy ever since. It is of upright habit, blooms freely during the entire summer, while it will stand the full sunlight, it will reach perfection in semi-shade. The four sepals are deep purple, the corolla bright ruby-red. Requires some protection north of Philadelphia. This variety is the best of the three early grown and free flowering.

65c each, 3 for \$1.50

GENISTA—Broom

Andreana. 4 ft. A beautiful new shrub, graceful, bright green stems covered with scarlet and golden-yellow flowers in summer; attaining a height of about 4 feet. 3 in. pot plants, 10-12 inch high. 40c each, 3 for \$1.00

Prostrata. 8 inch. Of prostrate creeping habit, golden-yellow flowers; June-July. A fine species for rockeries. 3 inch pots. 50c each

HAMAMELIS—Witch-hazel

Virginia. 5 ft. Small fragrant yellow flowers during February and March. 10-12 inch plants. 35c each

HYDRANGEA

Blue. 2-3 ft. The blue *Hydrangeas* are very popular and always in demand. Place your order early to avoid disappointment. Strong 2 year plants. 50c each, 3 for \$1.25, 6 for \$2.00

Paniculata grandiflora Peegee (The Panical Hydrangea). 10 ft. A well known late summer flowering shrub; large panicles of white flowers fading to pink. 18-24 inches.

40c each, 3 for \$1.00

Quercifolia (Oakleaf Hydrangea). 3 ft. Unusual and distinct form. Large greenish white flowers during summer months. 12-15 inch plants. 50c each, 3 for \$1.25

HYPERICUM—St. Johnswort

Moserianum. 18 inch. A fine shrub with large golden-yellow flowers all summer; considered the finest of the shrubby *Hypericum*. About 18 inches high. 35c each, 3 for 90c

JASMINE

Nudiflorum (Winter Jasmine). 2 ft. A very graceful, hardy, drooping, Chinese shrub with dark green bark and leaves; bright yellow flowers freely produced in late winter months. 3 year old plants. 50c each, 3 for \$1.25

KERRIA—Kerrybush

Japonica. 5 ft. A very attractive shrub. Slender, bright, green stems and leaves; golden-yellow, single flowers. 2-3 feet.

50c each, 3 for \$1.25

Japonica Fl. Pl. (Globeflower). 5 ft. A showy double flowered form. 18-24 inches.

50c each, 3 for \$1.25

Deciduous Shrubs--cont.

KOLKWITZIA—Beautybush

Amabilis. 8 ft. A handsome plant allied to the weigela and the honeysuckle and resembles each a little. It grows 6 ft. tall and is an arching shrub with the center always quite upright. Flowers are pale pink with orange veins in the throat, blooms very profusely in June.

2-3 feet 65c each
12-15 inch 35c each

LAGERSTROEMIA—(Grape Myrtle)

Most beautiful summer flowering shrubs for southern gardens. They will grow 10-12 feet high.

Pink.... 18-24 inches 75c each
Red 18-24 inches 75c each
Purple 18-24 inches 75c each

LESPEDEZA—Bush Clover

Formosa (Purple Bush-clover). 5 ft. Rosy-purple flowers in late summer; graceful arching branches. A very lovely shrub. The tops die to the ground each winter and are best cut to the ground each spring.

2 year old clumps 50c each

LIGISTRUM—Privet

Ibota Regelianum (The Regal Privet). 5 feet. A fine variety much used in landscape plantings. It makes a wide spreading shrub, heavy, deep green foliage, black berries in the fall.

2-3 ft. 50c each, \$5.00 per doz.

Ovalifolium (California Privet). 10 ft. A well-known for its usefulness for hedges.

12-18 inch \$1.00 per doz, \$4.50 per 100

LONICERA—Honeysuckle

Tatarica Pink (Pink Tatarian Honeysuckle). 12 ft.....3-4 ft. 50c each, 12-18 inch 25c each

Maacki Podocarpa (Late Honeysuckle). 12 ft. White flowers tinged with pink. A vigorous grower, holding its leaves well into the fall, bright red berries follow the bloom.

18-24 inch, 50c each

Fragrantissima (Fragrant Honeysuckle). 4 ft. Fragrant tiny, creamy white flowers, in March before the leaves appear. Stiff leathery dark green leaves. 18-24 inches.....40c each

NEVUSIA—Snow Wreath

Alabamensis. 3-5 ft. A very outstanding new find. Numerous slender wand-like stems with abundant white flowers in early spring. It is best planted in well drained, rather light soil in a sunny location. 18-24 inch plants \$1.00 each

PHILADELPHUS—Mockorange (Syringa)

Coronarius. 8 ft. The old fashioned tall sweet scented mockorange..... 3 feet plants 50c each

Virginalis. 5 ft. The beautiful large double flowering mockorange. It is one of the most attractive white flowering shrubs. The large, white flowers come in profusion and are very fragrant.

18-24 inch 50c each

Incanus Sargentii. 5 ft. A new Mock Orange. Large fragrant white flowers. Very showy and the latest to bloom. 12-18 inches.....\$1.00 each

(Deciduous Shrubs cont. next page)

POTENTILLA—Cinquefoil

Fruticosa. 2 ft. A small shrub seldom over 3 feet high. The golden-yellow flowers are produced from June to September.

12-15 inches 50c each

PRUNES GLANDULOSA—Flowering Almond

Double, pink flowering Almond. 4 ft. A very popular rather low growing shrub, covered with double, pink flowers in May.

18-24 inch 50c each, 2-3 ft. 75c each

Prunus Tomentoseum (Chinese Bush Cherry). 8 ft. Prized for its oriental beauty, noted for its delicious cherries. Flowers cover the branches in spring. 18-24 inches 50c each, 3 for \$1.25

ROBINA—ROSE ACACIA

Hispida. 6 ft. Clusters of rose-pink flowers. May and June. 2 year plants.....40c each

STEWARTIA

Pentagyna (Mountain Stewartia). 12 ft. A handsome shrub; large dark green foliage brilliant in autumn; cup-shaped creamy white blooms 4 to 5 inches across.

12-18 inch 75c each, 18-24 inch \$1.00 each

SPIREA

Anthony Waterer (Crimson Spirea). 3 ft. A low bush with crimson flowers from June to September.15-18 inch 40c each

Menziesi Macrothyrsa. 5 ft. The finest pink Spirea. Enormous spikes of cameo-pink flowers which are 8 to 10 inches long.

2-3 ft. plants 75c each

small plants 10-12 inches 25c each

Prunifolia. 5 ft. The true bridal wreath, small double white flowers, completely cover the branches. 18-2450c each, 3 for \$1.25

Thunbergi. (White Spray Spirea). 5 feet The lovely white flowers come in very early spring before the leaves, followed by small, light green leaves which remain very attractive till fall. A very graceful shrub. Bushy 2 ft. plants.

50c each, 3 for \$1.25

Trichocarpa (Korean Spirea). 6 ft. Similar to Vanhouttii except that it blooms about 10 days later. 2-3 ft.....50c each

Vanhouttii. 6 ft. The well-known bridal wreath. Excellent for hedges, foundation plantings, lawn specimens and many other uses.

18-24 inch 35c each

2-3 ft. 45c each

3-4 ft. 60c each

SYMPHORICARPUS—Coralberry-Snowberry

Racemosus (The Snowberry). 5 feet. Large white berries. 3-4 ft.....50c each

Cheunalti (Improved Coralberry). 5 ft. Neater and more graceful than the old coralberry. Red berries. 18-24 inch..... 40c each

SYRINGA—Lilac

Vulgaris (Common Purple Lilac).

12 ft. 18-24 inch 50c each

Vulgaris alba (Common White Lilac).

12 ft. 18-24 inch 50c each

French Lilacs

Prices and sizes on request

TAMARIX—Tamarisk

New Tamarix Summer Glow, *Hispida Aestivalis* Rubra. 8 ft. A lovely, new, bright red flowering form, flowers in profusion during July-August 2 year old plants.....\$1.00 each

VIBURNUM

Americanum (American Cranberry-bush). 10 ft. 12-18 inch.....40c each

Burkwoodii (Gardenia Scented Snowball). 4 ft. Most outstanding, new viburnum; glossy evergreen or semi-evergreen leaves; sweet-scented flowers, similar to those of viburnum Carlesi. 15-18 inch.....\$2.00 each

Carlesi (The fragrant viburnum). 5 ft. A very sweetly scented flower, opens blush pink, fading to white in large rounded clusters. Blooms in May. 15-18 inch, \$1.75 each

Dentatum (Arrow-wood). 6 ft. Dentated leaves white flowers followed by dark blue berries in the fall. 18-24 inches.....45c each

Opulus (European cranberry-bush). 10 ft. 18-24 inch.....50c each

(Viburnum cont. next column)

VIBURNUM—Cont.

Opulus nanum. 18 in. A very dwarf form of the above, seldom over 18 inches high, very compact bushy growth, seldom ever blooms. 12-15 inch.....50c each

Tomentosum Plicatum (Japanese Snowball). 8 ft. 18-24 inch, 50 each

VITEX—Chaste tree

Macrophylla. 5 ft. A lovely shrub of rounded form and handsome dark green, fernlike foliage. From June to September great lilac-like, lavender-blue flowers are produced at the ends of the branches. Excellent for many uses.....18-24 inch 50c each

WEIGELA

Abel Carriere. 5 ft. Rose carmine. Yellow throat fading purple. 18-24 inches.....40c each

Eva Rathke (Crimson Weigela). 5 ft. This is the showiest of the weigelas; brilliant deep crimson flowers come in profusion; blooms in June and often times few blooms again off and on throughout the summer.

18-24 inch 40c each, 3 for \$1.00

2-3 ft. 50c each, 3 for \$1.25

Rosea (Rose Weigela). 8 ft. The popular pink Weigela. 2-3 ft.....50c each

EVERGREEN SHRUBS**ABELIA—Bush Arbutus**

Grandiflora. 4 ft. A very useful shrub; shiny evergreen foliage and it blooms from June to November. White, flushed pink flowers. Much used for foundation plantings and mixed with other shrubs and evergreens. 2 year old bushy plants.....50c each

Edward Goucher. (New Pink Abelia). A beautiful, new variety. The flowers are much larger and of a lovely shade of lavender-pink. Truly a worthwhile new shrub that any one should try. Just as easy to grow and blooms as continuously as the above variety. 2 year old 4 inch pot plants.....\$1.00 each

Amoena Coccinea. 3 ft. A new hardy Azalea, equally as hardy as Amoena while in coloring it is a brilliant fiery red. Bushy 10-12 inch plants.....\$1.00 each

Hinodegiri. 3 ft. Flowers brilliant scarlet, foliage rounded and deep green. The flowers are produced so profusely as to completely cover the plant. Probably the most popular Azalea grown. Bushy 10-12 inch plants.....\$1.00 each

Hinomayo. 4 ft. Flowers a beautiful soft pink. Resembles Hinodegiri in habit of growth but leaves are smaller in size and a lighter green. We consider this one of the best pinks.

10-12 inch \$1.00

Young plants of any above 3 varieties 4-6 inch, 35c each, 3 for 90c

Ledifolia alba. 4 ft. Very large white flowers; good grower and profuse bloomer.

12-15 inch \$1.35

Sweet Brier. One of the hardiest of the Kurume varieties. Attractive lively rose-pink flowers. New! 2 year plants

50c each, 3 for \$1.25

(Azalea cont. next column)

AZALEA—Cont.

Arnoldiana Messieana. Lovely orchid-lavender flowers. A strong grower. 2 year plants. 75c each, 3 for \$2.00

AZALEA KAEMPFERI HYBRIDS—**The Torch Azalea**

New Varieties, height 3 to 5 feet

Atlanta. Immense purple flowers, good grower.

Betty. Flowers brilliant rosy-pink, with trace of orange.

Cleopatra. Early, light pink, tall grower.

Fedora. Large, salmon, strong grower.

Othello. Brick-red to orange.

Any above 6 varieties, 2 yr. plants 6-10 inches high 50c each; 1 each of any 3 varieties, \$1.25

BERBERIS—Evergreen Barberry

Julianae (Wintergreen Barberry). 5 ft. An evergreen Barberry with narrow-toothed spiny leaves that on the new shoots are several different shades of green. A very valuable evergreen shrub.....30c each, to \$2.00 each

Tricanthophora (Three Spine Barberry). 3 ft. In our opinion this is the finest of the evergreen Barberries. 6-8 inch.....45c each

Verruculosa (Warty Barberry). 3 ft. Charming, semi-dwarf, slow growing species. Leaves dark glossy green, whitish beneath; flowers primrose-yellow.....50c, \$1.00, and \$1.50 each

BUXUS—Boxwood

Suffruticosa (nana). The true dwarf box hedging boxwood. Bushy 3 year old plants averaging about 6 in. high. An ideal size for hedging.

20c each, \$1.70 per doz., \$12.00 per 100, \$25.00 per 250

CALLUNA—Scotch Heather

These choice evergreen shrubs require acid soil where soil conditions are not present. We suggest a thorough mixture of about half sand and peat moss working it in thoroughly with your present soil, then plant and water well. They will get along nicely in full sun or partial shade, they also make fine plants to plant with other evergreen shrubs, such as Rhododendrons and Azaleas.

Vulgaris. An upright growing variety covered with rosy-lavender flowers during July and August, attaining a height of 2-3 feet.

Vulgaris alba. A compact and dwarf white flowering form of the above.

Vulgaris aurea. Golden foliage with lavender flowers.

Vulgaris rubra. Low spreading bush with rosy-carmine flowers.

Any above varieties, 2 year plants 35c each, 3 year 50c each.

COTONEASTER—Rock Spray (Quinceberry)

Selected evergreen and deciduous varieties

Adpressa (Creeping Cotoneaster). 6 inches. A fine variety for ground cover, shiny dark green leaves. 3 inch pots.....40c each

Apiculata (Cranberry Cotoneaster). One of the finest, extra large red berries. 2 year plants 50c each

Dammeri (Humifusa). 8 inches. An essential creeping shrub for the rockery, a perfect prostrate species with bright evergreen foliage and coral-red berries. 3 inch pots, 2 year old. 50c each

Divaricata (Spreading Cotoneaster). 5 ft Handsome shrub with small glossy green leaves and ovoid scarlet berries. One of the best for autumn color foliage. 18-21 inches.....75c each

Horizontalis. 2 ft. Low growing shrub with horizontal branches, small, dark, green leaves covered with red berries in fall. A fine shrub for many uses. 2 year plants.....50c each

Salcifolia (Willow-Leaf Cotoneaster). 5 ft. Semi-evergreen. The branches have graceful, drooping habit; white flowers in May and June; red fruit. Very handsome. 2 year plants. 50c each

DAPHNE—Garlandflower

Cneorum. 10 inches. Lovely spreading evergreen shrub with very fragrant pink flowers; blooms off and on all summer. It prefers a sunny location and light soil. 35c, 60c, and \$1.00 each

ERICA—Heath

See Calluna for Culture

Carnea Rosea. One of the loveliest of all early spring flowering Ericas, forming spreading mats. The bush very seldom exceeds 8 inches in height and is covered with rosy-pink flowers in March and April, very hardy and free bloomer. An outstanding little shrub for your rockery.....40c and 65c each

Vagans (Cornish Heath). 12 inches. A glorious summer flowering species with purple flowers. 40c and 65c each

ILEX—Holly

Aquifolium (English Holly). This is not as hardy as the American Holly but can be safely planted from New Jersey, South. Glistening evergreen foliage; large red berries. 3 inch pots, 12 inch plants.....60c each, 3 for \$1.50

Cornuta Femina (Chinese Holly). 10 ft. A berry bearing form of the Chinese Holly. Leaves dark glossy green, oblong with 3 strong spikes at the dilated apex, and one or two on each side; scarlet berries. One of the showiest hollies. 3 inch pots.....65c each

Cornuta Bufordi. A new variety of Cornuta which is hardier and a faster grower; red berries. 3 inch pot-plants.....60c each

Crenata (Japanese Holly). 5 ft. The small leaved Japanese Holly is a slow growing shrub, seldom exceeding a height of 5 feet. Leaves dark, glossy green; small black berries. 18-24 inch.....\$1.50 each
Young bushy plants. 8-12 inch.....50c each

Crenata Helleri. 18 inches. Very compact low growing-foliage is so thick and dense you can hardly put your fingers through it—very small leaves. We consider this one of the best novelties recently introduced. 3 inch pots. 50c each

Opacca (American Holly). 25 feet. We think there is nothing prettier than our native American Holly, especially when it is full of bright red berries, although its bright glossy foliage is beautiful all the year round. 3 inch pots. 60c each

Opaca, Male. Should be planted with Female varieties to pollinize them. 3 inch pots. 65c each

Opacca Howard. 25 ft. Distinctive type of the American Holly, bearing deeper and darker green foliage than other varieties of the Opacca group. A heavy bearer of deep red berries produced in abundant clusters. The rich, shiny leaves of this variety are practically without spines. 3 inch pots.....65c each
15-18 inch.....\$1.00 each

Opaca Groenenburg. A sensational new American Holly. Large dark green foliage and masses of large red berries. Try it! 12-15 inch plants.....\$2.00 each

Opaca Zanthocarpa. A yellow berried variety of the American Holly. 3 inch pots. \$1.00 each, 3 for \$2.50

Pernyi. 10 ft. An interesting and unusual shrub of bushy growth, handsome shiny and spiny evergreen leaves. 3 inch pots.....60c each

KALMIA—Mountain Laurel

Latifolia. 3 ft. It has beautiful glossy green foliage and clusters of pinkish white blossoms in early spring. 12-15 inches.....\$1.25 each

LEUCOTHOE

Catesbaei. 3 ft. (Drooping Leucothoe). A very valuable evergreen shrub for planting under trees and borders of woodlands and in shady places. Flowers are borne in drooping racemes and are fragrant. 12-15 inches.....\$1.00 each

NANDINA—Heavenly Bamboo

Domestica. 8 ft. Very interesting upright growing shrub, the handsome foliage turns red in the fall. It has clusters of extra large berries. 15-18 inches 75c each; 2-3 ft. \$1.50 each

PACHISTIMA

Canbyi. A choice little evergreen shrub of very low growth, seldom over 8 inches high. Good to plant in front of tall shrubs or evergreens, also good for the rock garden; does well in sun or part shade, in well-drained soil. Large plants \$1.00 each

PYRACANTHA—Firethorn

Coccinea Lalandi. 8 ft. A beautiful evergreen shrub covered with a profusion of white flowers in early spring, followed by bright orange berries which hang on nearly all winter. 12 inches 50c each, 3 for \$1.25
18-24 inches \$2.00 each

RHODODENDRONS—New Hybrids. 4-5 ft.

Caractacus. Crimson-carmine with purple shade.

Catawbiense album. A fine white.

Dr. C. H. Dresselhuys. Aniline-red, pure color.

Everstianum. Rosy-lilac, shaded violet.

Mrs. C. S. Sargent. Crimson pink, yellow-green throat.

Any the above varieties, bushy budded plants, 15-18 inches high \$2.25 each

SMALL FLOWERING AND ORNAMENTAL TREES

The size following the variety name indicates approximate height at Maturity

MAPLE—(Acer)

Palmatum atropurpureum (Japanese Red Leaf Maple). 12 ft. A handsome, small tree, highly prized for its purely ornamental beauty and the charm of its blood-red foliage. 15-18 in. to 2½ ft. \$1.50 to \$4.00 each

Palmatum dissectum atropurpureum (Treadleaf Japanese Maple). 10 ft. A form of the above with graceful finely cut foliage. Prices same as above.

Redbud-Judas Tree (Cercis)

Canadensis. 15 ft. Clusters of rosy-purple flowers come before the leaves in April.

2-3 ft., 50c each

Japanese Flowering cherries (Cerasus)

Fugenzo. 15 ft. The latest to bloom, large double pink flowers.

Kwanzan. 15 ft. Dark pink, fully double flowers.

Mt. Fuji (Shiratae). 15 ft. The best double white.

Any above 3 varieties 3-4 ft., \$2.00 each
4-5 ft. \$2.75 each

Subhirtella Pendula (Weeping Cherry). Hanging branches, loaded with pink flowers in late April and May. 5 ft. \$4.50 each

Double Pink Weeping. Similar to above with Double dark pink flowers. 5-6 ft. \$5.50 each

Prunus Lannesiana (The Wilson Flowering Cherry). This grand variety is one of the latest to flower, extending cherry blossom time 3 or 4 weeks. A fragrant semi-double pink with fastigiata upright growth.

2-3 ft., \$1.00 each

Washington Hawthorn (Crataegus Cordata). 15 ft. An attractive small tree covered with scarlet berries in the fall. The berries usually remain on the tree till spring. 4-5 ft. specimen plants \$3.00 each; small plants, 18-24 inches 50c each, 3 for \$1.25

DOGWOOD—(Cornus)

Florida (White Dogwood). 15 ft. 18-24 in. 75c

Florida Fl. Pl. New Double White Dogwood. 12-18 inches \$1.50 each

Florida Rubra (Pink Dogwood). 15 ft.
75c to \$5.00 each

GOLDEN RAIN-TREE (Koelreuteria)

Paniculata. 25 ft. A splendid, small tree covered with bright yellow flowers in mid-summer. 3-4 ft. \$1.50 each

GOLDEN-CHAIN-TREE (Laburnum)

Vossi. 20 ft. A beautiful, new hybrid form of the common Laburnum vulgaris; long drooping cluster of yellow pea-like flowers. It makes a lovely lawn specimen. 4-5 ft. \$3.50 each

FLOWERING CRABS (Malus)

Arnoldiana (Arnold crab). 12 ft. One of the most beautiful varieties, originating at the Arnold Arboretum. Very large rose colored flowers, turning to white.

Atrosanguinea (Carmine Crab). 12 ft. A profuse bloomer with carmine-red flowers, graceful in habit.

Eleyi (Eley's Purple Crab). 15 ft. Upright habit, young foliage purplish red flowers and fruits.

Spectabilis (Chinese Flowering Crab). 12 ft. Any above 4 varieties 3-4 ft. plants \$1.00 each, 1 each of any 3 varieties for \$2.50

Has beautiful coral-red buds paling to delicate rose when fully expanded; exquisite fragrance; nice habit, very hardy.

Spectabilis Rosea Plena. A beautiful new double flowering form of the above. 2-3 ft. plants only.

Any above 5 varieties, 3-4 ft. \$1.00 each

MAGNOLIA

Soulangeana (Saucer Magnolia). 15 ft. One of the most beautiful of all flowering trees. It makes a small, many trunked tree with gorgeous shining foliage; in early spring it is covered with enormous pinkish-white flowers, more or less purplish on outside.

Soulangeana Lennei (Purple Magnolia). Flowers rose-purple outside, rosy-white inside. Wide, spreading habit. Vigorous, blooms later than Soulangeana.

Stellata (Star Magnolia). 10 feet. The semi-double pure white flowers completely cover the entire bush in early spring. Fragrant.

(Magnolia cont. next page)

Small Flowering and Ornamental Trees--cont.

MAGNOLIA—Cont.

Stellata (Waterlily). This plant grows in a pyramidal shape, more bushy and twiggy than the *M. Stellata*. It is a faster grower than *Stellata*, but not as rapid as the *Soulangiana*, the branches being much more slender. It bears flowers in great profusion and blooms two to four weeks later than *Stellata*. The flowers are well placed on ends of the branchlets, measuring from 4½ to 6 inches across. The flowers consist of three to five layers, running from twenty to thirty-two petals, which have more character than the *Stellata* and stand in

a more upright position. The color is blush-pink, the buds flesh pink.

10 inch plants, \$2.00 each

Any above Magnolias, 4 year old plants except
Stellata (waterlily), 15-18 inch.....\$1.50 each
 18-21 inch\$2.00 each

DOUBLE RED FLOWERING PEACH

(*Prunus Persica*)

***Prunus Persica rubra* Fl. Pl.** 10 ft. A showy small tree, covered with large, double, crimson-red flowers in the spring. 4-5 ft. \$1.00 each

VINES

BOSTON IVY

Ampelopsis Veitchi. A hardy climbing vine. Clings to the smoothest surface of rock and wood. The glossy leaves assume in the autumn, the most beautiful tints of scarlet and crimson. Best vine for brick walls.

35c and 50c each

LARGE FLOWERING CLEMATIS

Very popular climbing plants doing well in light, fertile, well-drained loam soil.

Duchess of Edinburgh. Bears a profusion of elegant, large, double, white blooms.

Henryi. The lovely large creamy white flowers are magnificent.

Jackmani. A universal favorite on account of its rich purple blooms.

Mme. Baron Veillard. Large lavender flowers; very choice.

Mme. Edouard Andre. Splendid large flowers of a bright rosy carmine color.

Ramona. Lavender-blue.

Any of the above 75c each, any 3 for \$2.00

SWEET AUTUMN CLEMATIS

Paniculata. A vigorous and showy climber. During August and September the vines are covered by a great profusion of graceful pure white blooms which have a most deliciously sweet fragrance 35c each

HYDRANGEA—Climbing Hydrangea

Petiolaris. Closely cling vine; large loose flat clusters of blooms during summer. 3 inch pots. 85c each

EVERGREEN IVYS—HEDERA

Albany (Miniature Bush Ivy). Dense, compact growth, fine for edging and many other uses. Grows best in the shade. 35c each, \$3.00 per doz.

Conglomerata. A rare miniature ivy with crinkly twisted leaves, of very compact growth.

40c each, 3 for \$1.00

Conglomerata Erecta. A very interesting upright-growing form of the above. 3 inch pots. 40c each

New Ivys sent to us by U. S. Dept. of Agriculture. Descriptions used are by them; stock offered is healthy young plants from 2¼ inch pots. Prices on all varieties—

20c each, \$2.00 per doz., \$15.00 per 100

Colchica. Colchis Ivy. A rampant, high-climbing ivy with the young growth covered by golden-yellow scales. The thick, broadly cordate, almost unlobed, bright green leaves of firm texture sometimes becomes as much as 10 inches across. Probably not hardy north of Virginia.

(Ivys cont, next column)

Ivys—cont.

Colchica Dentata. A vigorous rampant vine with widely spaced leaves, 6 to occasionally 10 inches in length. The leaves rarely show any evidence of lobing, but the margins are marked with irregularly and widely spaced, small, sharp serrations. The plant is probably more tender than any of the others listed here.

Helix Angularis aurea. A vine of strong growth with large, indistinctly lobed leaves as much as 5 to 6 inches across. The new growth is light green in age becoming medium green. At its best, the leaves develop a pattern of small yellowish-green, angular areas filling the spaces between the veins, but at Glenn Dale this pattern is seldom formed.

Helix Atropurpurea. A moderately vigorous vine with medium-sized leaves 2-3 inches across, somewhat darker green than the others during the summer. In winter they become dark purplish with a faint venation pattern of dull red brown.

Helix Caenwoodiana. A slender vine of medium growth, similar to var. *Donerailensis*, from which it differs chiefly in its somewhat wider shorter lobes, and slightly larger leaves.

Helix Donerailensis. A vine of only moderate vigor. Its closely set leaves are about 1½ inches broad. They have 3 or sometimes 5 narrow, spreading lobes. The medium green color becomes dull purplish bronze in winter.

Helix Emerald Gem. A vine of moderate vigorous growth with thin, broad, obtusely lobed leaves about 2 in. in each dimension. The new growth is a splendid light green in summer. In winter the leaves are warm reddish bronze.

Helix Hibernica. Aureo-maculata. This plant differs from *H. Helix Hibernica* chiefly in the presence of irregular yellowish-white blotches on the leaves. The blotches vary in size from very small to more than half a leaf.

Helix Howardii. A slender vine of medium growth with small, 3-lobed leaves, at most 2 inches across. The summer color is dark green, dotted; marbled, or occasionally blotched with creamy white. The variegation, however, is uncertain. The plants may be a little tender.

(Ivys cont, next page)

Ivys—cont.

Helix Marmorata elegans. A form with broad leaves of medium size, with prominent obtuse basal lobes. The conspicuous variegation, mottled and marbled in various shades of green to creamy white, extends over the whole leaf surface.

Helix Mrs. Pollock. A fairly vigorous, slender vine with small, broad leaves, furnished with 5 or occasionally 7 short lobes. The major veins are rather prominent and, under certain conditions, the leaf margins and sometimes the areas between the veins become yellowish white, in a fashion similar to that in Var. *Angularis aurea*. At Glendale, however, this change has rarely occurred.

Helix Rhomboidea. A vine of slow growth with stiff, well-leaved stems. The typical leaf is entire, long ovate, distinctly cordate at the base, dark green with a light pattern about the venation. In winter the areas between the veins become bronzed.

Helix Rhomboidea Variegata. The leaves are almost triangular in shape, occasionally three-lobed, and about 2 inches long. The margins are white, and sometimes the variegation extends over the outer portions of the leaves.

Helix Var., New Bronze. A form with dark-green obtusely lobed leaves of medium size. In cold weather the leaves assume a pleasing purplish bronze color.

NEW SCARLET TRUMPET HONEYSUCKLE

Lonicera Sempervirens Magnifica. A magnificent new Honeysuckle with coral colored blooms of large size and beautiful blue-gray-green foliage. The brilliant and cheerful flowers freely produced all summer.....50c each

Goldflame. Blossoms from late spring to frost. The outside of the trumpet-shaped flowers is brilliant flame pink, the inside creamy golden-yellow. It can be grown as a vine or bush.

2 year plants, 85c each

New Delicious Blueberries

For several years experts have been working on and improving the old-fashioned Blueberries. Wonderful results have been obtained. Just imagine the old-fashioned Blueberry or "Huckleberry" three quarters of an inch in diameter with these improved varieties and the increase in the amount of fruit has been multiplied several times.

Blueberries require an acid soil containing an abundance of peat or other partially rotted vegetable matter. They need a moderate supply of soil-moisture, and good drainage so that the roots can get air during the growing season. Space the plants about 3 feet apart if planted in a row. Setting the plants in beds 3 feet apart one way and 4 to 5 feet the other way has also been found satisfactory.

Cabot. The earliest variety to fruit. Plants seldom exceed 3 feet in height, making a broad low bush. The leaves are comparatively slender and a very dark green. In winter the new growth is light red, over olive. Berries have a delicious sub-acid flavor.

Concord. The bush is of upright habit and at maturity exceeds six feet in height. The young growth is bright red in winter. The berries are large, frequently reaching three-quarters of an

SILVER LACE VINE

Polygonum Auberti. This is a most desirable vine which is just becoming better known. It will make a strong vigorous growth attaining a height of 25 feet. The vines produce a great profusion of foamy white flower sprays during late summer and early fall. It is perfectly hardy and is not troubled by any plant diseases. Does well in either sun or shade.

2 year 50c each, 3 for \$1.25

WISTERIA

Multijuga Rosea (Long-cluster Pink Wisteria). The handsome pink flowers are borne in large pointed 18 to 24 inch clusters, with or before the leaves in spring. These are grafted plants and are sure to bloom. Grafted plants \$1.25 each

Sinensis (Purple Flowering Wisteria). Strong rapid grower, desirable for trellises, porches, etc. The light purple pea-shaped flowers are very showy and are produced in drooping racemes about a foot in length. A large vine in bloom is a beautiful sight. Our plants are either grafted or from cuttings off blooming plants and are sure to bloom. 3 year \$1.00 each

Sinensis Alba. (White Flowering Wisteria). A white flowering form of above. 3 year \$1.00 each

Sinensis Issai (Blue Chinese Wisteria). Useful in limited space because it does not grow rank. Blooms off and on all summer.

Grafted plants \$1.00 each

New Long-clustered Japanese Wisteria (Wisteria Multijuga.)

These new Wisteria are far superior to the old Wisteria. They have extra large clusters of blooms 18 to 24 inches long and bloom a short while after planted. They are all grafted plants, therefore, sure to bloom.

Multijuga Pink \$1.00 each

Multijuga Purple \$1.00 each

Multijuga White \$1.25 each

Multijuga Violacea Plena. Deep violet-blue \$1.00 each

inch in diameter. They usually ripen a few days earlier than Rubel and are fine in flavor and appearance.

Jersey. The bush is of vigorous habit and grows very large. The winter color of the young growth is a light red over golden brown. The berries are the largest of any here listed, are of a very light blue color and ripen about the same time as Rubel.

Rancocas. The bush of slender, vigorous, upright habit rarely surpasses five feet in height. The winter twigs are a dark red. The berries are somewhat larger than those of Rubel and begin to ripen several days earlier.

Rubel. Well-developed bushes stand 6 feet or more high, vigorous and beautiful. The stems are slender, but sturdy, the older ones covered with smooth, gray bark, while the winter color of the young wood is a rich red. The large berries are of fine blue color. Can be depended on for a good crop every year. Ripens about two weeks later than Cabot.

Any of the above 5 varieties 2 yr. 12 to 15 inches.....75c each, 3 for \$2.00, 10 for \$6.00, \$50.00 per 100, 25 at the 100 rate

A Few Choice and Rare Conifer Evergreens

The size following the variety name indicates approximate height at maturity

Selected Garden Books

We can supply many other books if you are interested.

Prices quoted are postpaid to your door in the U. S. A., only

THE BOOK OF ANNUALS

By Alfred Carl Hottes

The author opens up many new possibilities to garden makers in this book, which is exceedingly complete, and in all is a most useful manual dealing with annual flowers. With annuals alone almost every kind of effect can be secured, while the combinations of flowers which are made possible by a little study are most alluring. Over 100 separate species of annuals are described, with full directions for their culture and uses. 180 pages. 158 illustrations. \$1.50.

ALL ABOUT FLOWERING BULBS

By T. A. Weston

All that one needs to know about the planting and care of some 80 families of bulbs is set down clearly and entertainingly in the 184 pages which make up this volume. An amazing amount of information is given about Spring flowering, Summer flowering and Tender bulbs, and it may safely be said that is information at first hand, not compiled. The illustrations, too, are noteworthy, there being eight full page color plates and 68 black and white halftones. \$2.00.

MODERN DAHLIA CULTURE

By W. H. Waite

No book on Dahlias has achieved greater popularity than this work by Mr. Waite, the well known raiser of Jersey's Beauty and many other fine varieties. Written to meet the needs of the novice and to interest and inform the expert. Gives classification, culture, propagation, insects, diseases and remedies, shipping, packing, storing, soil, fertilizers, exhibiting at shows, etc. 24 halftone illustrations and six in full color. 134 pages. \$1.50.

GARDEN FLOWERS IN COLOR

By G. A. Stevens

A "best seller" by any standard, this book shows all the important garden flowers in accurately colored photographs and gives descriptions and cultural notes. You will use this book every time you plant, plan a color scheme, or combine plants in bed or border arrangements. It is also useful for identifying plants, for finding correct botanical and common names. 400 photographs in full color; 320 pages. Formerly \$3.75. NOW \$1.98.

Selected Garden Books -- *continued***HORTUS SECOND: A CONCISE DICTIONARY OF GARDENING**

By L. H. and Ethel Z. Bailey

Completely revised and rewritten. Easy to use, accurate, and non-technical, this great book comes closer than any other single volume to answering every question about gardening. It includes every kind of ornamental, fruit, and vegetable plant grown today with brief but complete information on their uses, cultivation, hardiness, propagation, preferred soil, color, identification, etc. Common names are used, all botanical terms are defined, and the book is so conveniently arranged and compressed that is marvelously easy to handle. Illustrated with line drawings. 832 pages. \$12.00

THE GARDEN IN COLOR

By Louise Beebe Wilder

This, the last book by America's favorite garden writer, combines one of her most readable texts with 320 reproductions of natural color photographs—gardens, flowers, flower beds, and arrangements at every season of the year, and Mrs. Wilder's text gives hints on culture, arrangement, etc. **GARDEN DIGEST** says, "a priceless companion to every catalogue and garden book." 7½x10¾ inches. Formerly \$7.50, NOW \$2.95.

1001 GARDEN QUESTIONS ANSWERED

By Alfred Carl Hottes

A complete manual for the amateur gardener, but presented in question and answer form. The well arranged index guides the seeker without delay to the direct answer to his question, whether it be "How deep shall I plant my Lilies?"—"Why do Peonies often fail to bloom?"—or "How are cut worms controlled?"—and so on and so forth. The clever drawings in this book save hundreds. 330 pages. \$2.00.

LANDSCAPING THE SMALL HOME

By Edward W. Olver

For the owner of the average city or suburban lot, ranging from 40x120 ft. to 75x150 ft., teaching him how to plan and execute a planting economically and correctly. 160 pages 90 illustrations. \$1.00.

THE BOOK OF PERENNIALS

By Alfred Carl Hottes

Among amateur gardeners there is a decided preference for perennial plants, largely because they require but little care and so generously reward that little. For those desiring a continuous show of color from early Spring to early frost in their gardens, this book will be extremely valuable, discussing over 125 separate species individually, with their culture and requirements. 103 illustrations. \$2.00.

ROCK GARDENS

By F. F. Rockwell

How to build a rock garden yourself, on a large or small scale and at small cost. It describes the types of rock gardens, tells what soils, climates, and locations are best, how to construct and what to plant. 31 illustrations. 86 pages. \$1.25

MODERN ROSES, II

By J. Horace McFarland

Revised Edition. For growers, nurserymen, and seedsmen, the book constitutes an accurate check-list of rose names and descriptions; for hybridizers, it is an incomparable source book of rose pedigrees; for garden growers of roses, it is a reliable guide to real facts. \$5.00.

THE BOOK OF SHRUBS

By Alfred Carl Hottes

In this third and thoroughly revised edition, *The Book of Shrubs* reaches its peak in its appeal to every home owner, plantsman, student and landscape architect, and is a mine of information on everything relating to these woody perennials as grown in all sections of the country. Over 190 illustrations. 448 pages. \$3.00

THE BOOK OF TREES

By Alfred Carl Hottes

An all-around handbook for the tree lover and tree planter. There are chapters on trees important in American history, on favorite tree poem, on street trees, on roadside trees, on nut trees etc. Transplanting, pruning and propagation are covered and a variety of helpful lists for various purposes are given. Much space is devoted to descriptions of species of important deciduous and coniferous trees. 488 pages. 200 halftones and line cuts. \$3.50.

PRACTICAL VEGETABLE CULTURE

By Albert E. Wilkinson

In its 308 pages all phases of vegetable culture are covered from sowing the seed to reaping the harvest; there are innumerable garden plans of all kinds and of all sizes, greenhouses, hotbeds, coldframes, home vegetable storage, control of pests and diseases, etc., are discussed in detail. 135 illustrations. \$2.00.

WILD FLOWERS

By Homer D. House

This famous book identifies, by means of natural color photographs and descriptions, hundreds of American wildlings. It is possible to identify the flowers by consulting the 22-page index which lists both botanical and common names, or by leafing through the pages of beautiful pictures. 364 full-color illustrations, 340 pages of text; 9½x11¾ inches. Formerly \$7.50. NOW \$3.95.

Annual Flower Seeds

All seed will be sent postpaid.

"Although we specialize in Perennial Plant Material, we recognize the value of many varieties of Annuals for color effect in group planting, for cut flowers and because they are adapted to countrywide growing conditions. We have listed below those varieties we believe to be the pick of the 1941 offerings. Our seed, in our judgement, is of the best obtainable." If you are interested in other varieties of Flower Seeds we'll be glad to get them for you.

ALL AMERICA WINNERS FOR 1941

Order by numbers if you wish.

Awarded Silver Medal

10—**Petunia, All Double Blue Brocade.** A dwarf true violet blue variety. Very free bloomer and good sized flowers. A fine novelty for bedding. Packet 50c.

11—**Petunia, Radiance.** Hybrid type. Flowers brilliant rich rose with brown veined yellowish throat. An outstanding Petunia which blooms early and profusely. Flowers are 1¾ to 2 inches across. Packet 25c.

12—**Petunia, Fair Lady (First Lady).** Exceptionally uniform dwarf type. Bold 2½ in. flowers of beautiful bluish pink. An unique color, distinct and pleasingly desirable for the garden. Packet 25c.

13—**Marigold, Spry.** Extra dwarf, double French type. Fine for edging. About 9 in. tall, early blooming, with light orange crested center and maroon outer petals. Packet 25c

Awarded Bronze Medal

14—**Phlox, Rosy Morn.** Noted for its brilliant rose-white eye blooms. Extra large flowered. An early, free bloomer. Packet 25c.

15—**Marigold, Goldsmith.** Giant Chrysanthemum flowers of golden orange. Base branching with good stems for cutting. Packet 25c.

16—**Zinnia, Black Ruby.** A deep velvety maroon Pompom Zinnia of merit. Distinct color for its class. Flowers 1¼ in. on long stems. It will prove a popular addition to any garden. Packet 25c.

Awarded Honorable Mention

17—**Petunia, Violet Gem.** Rich violet-blue, miniature petunia. Only 6 in. tall and compact with numerous 1½ in. flowers. Suitable for edging. Packet 25c.

18—**Scabiosa, Peace.** Semi-tall, double white, companion to Heavenly Blue, bronze medal winner of 1940. Good for cutting and easier to handle in gardens than the taller varieties. Flowers fully 1¼ in. across on 6 to 8 in. stems. Packet 25c.

19—**Marigold, Scarlet Glow.** A dwarf French double of a distinct bright bronzy red color. Flowers 1¾ in. across. Some show russet and gold, but as a whole, it is probably the the largest and brightest red double marigold. A very free bloomer. Packet 25c.

REGULAR LIST OF ANNUALS FLOWER SEEDS

20—**Asters.** Special Selection of Wilt Resistant Mixed. Includes all types and colors in balanced proportion. Of outstanding value for cutting garden or mixed bed or border. Packet 15c, ¼ oz. 40c.

21—**Asters.** Single Giants of California Mixed. Flowers large, 3 to 4 in. in diameter, petals graceful. Stems 18 to 24 in.; blooms in mid-September. Pkt. 15c, ¼ oz. 50c.

22—**Alyssum (Sweet), Little Gem (White Carpet).** Height 4 in., the plants are so completely covered with snow-white blossoms, they create the impression of a beautiful white carpet. Pkt. 10c, ¼ oz. 25c, ½ oz. 40c, 1 oz. 75c.

23—**Alyssum Violet Queen.** A new edging plant, very pretty bright violet tint which does not fade in hot weather. Height 4 in. Pkt. 25c.

24—**Antirrhinum (Snapdragons).** (Rust resistant). New University of California Mixture. An exceptionally strong growing and long stemmed strain covering a very complete color range. A fine mixture. Pkt. 25c.

25—**Calendula, Campfire (Sensation).** Flowers grow 4 in. wide, completely double, color a deep orange. Especially selected stock. Pkt. 15c, ¼ oz. 50c.

26—**Calendula, Special Mixture.** A delightful collection for cut flower use or exhibition. All colors and types. Pkt. 15c, ¼ oz. 35c.

27—**Calliopsis, Special Mixture.** It contains all the desirable types and colors of these beautiful flowers. Pkt. 10c, ¼ oz. 40c.

28—**Centaureas, Special Super Double Mixed.** A perfected strain of this popular hardy annual, which everyone can grow in any garden soil. Large flowers, vivid colors and long wiry stems, making fine cut flowers. Will bloom continuously all summer. Pkt. 15c, ½ oz. 40c.

29—**Celosia (Cockscomb), Flame of Fire.** Height 18 to 20 in. Perfect pyramidal habit with center head and many side branches of lush green. The branches terminate in circular feathery combs of fiery scarlet. Pkt. 25c.

30—**Cosmos, Sensation.** New Giant Early Strain Mixed. Early flowering, blooming in about 12 weeks from sowing. Flowers are 4 to 5 in. across with heavy fluted petals. A delightful rose-pink and a white with satin sheen. Pkt. 25c.

31—**Cosmos, Orange Fire.** Showy golden orange flowers, an outstanding color. Pkt. 15c, ½ oz. 35c.

32—**Gourds, Special Mixture.** All shapes and sizes of these interesting fruits, so fashionable for ornaments. Pkt. 15c, ½ oz. 25c, 1 oz. 40c.

Annual Flower Seeds -- cont.

- 33—**Hollyhocks, Indian Spring.** An annual variety that will bloom from seed the first year if sown early. Flowers are bright rose and rosy-carmine, semi-double. Awarded Silver Medal in 1939 All America Trials. Pkt. 25c.
- 34—**Larkspurs, Special Annual Mixture.** A charming mixture containing all the bright and delicate shades. Makes wonderful cut flower material. Sow early in well-manured soil and in full sun. Thin out and give plants plenty of room. Pkt. 10c, $\frac{1}{4}$ oz. 30c, 1 oz. \$1.00.
- 35—**Marigolds, Dahlia Flowered Sunset Giants.** Largest of all Marigolds. Although color varies somewhat, yellow and orange, the plants are vigorous with heavy stems. Flowers 60% double. Pkt. 25c.
- 36—**Marigolds, Guinea Gold.** The original carnation-flowered type, still very popular. Brilliant orange flushed with gold. Practically 100% double. This is the early flowering sort. Pkt. 10c, $\frac{1}{8}$ oz. 25c.
- 37—**Marigolds, Yellow Supreme.** A large bloom of honey fragrance, with broad, loose, frilled petals of a rich lemon-yellow, of true carnation-flowered type. Pkt. 10c.
- 38—**Marigold Harmony.** Attractive Scabious-like, double flowers; deep orange center with maroon-red outer petals. Quite striking and valuable in combinations or for bedding. Dwarf and free flowering. Pkt. 15c.
- 39—**Golden Harmony.** A bright golden-yellow twin to Harmony. Pkt. 20c.
- 40—**Yellow Pygmy.** A little gem, bright lemon-yellow flowers on compact bushy plants 6 in. high. Pkt. 15c.
- 41—**Morning Glory, Heavenly Blue.** Clark's Early Flowering—One of the few flowers of true blue color and probably finest of all morning glories. Large flowering, they blossom profusely for a long season. Give plants full sun and do not over feed as this may limit flowers. Pkt. 15c, $\frac{1}{4}$ oz. 40c.
- 42—**Nasturtiums, Double Glorious Gleam Hybrids.** Colors, never seen before in a double nasturtium, abound in profusion. A truly wonderful strain. Pkt. 10c, 1 oz. 20c.
- 43—**Nasturtiums, Special Dwarf Mixture.** This mixture is made up of named sorts of the single and double varieties, which have the richest and most varied combination of colors. Pkt. 10c, 1 oz. 15c, $\frac{1}{4}$ lb. 45c.
- 44—**Nicotiana, Affinis.** One of the most delightfully fragrant flowers, giving a continuous display of waxy white flowers right through the summer and fall. Pkt. 10c, $\frac{1}{8}$ oz. 25c.
- 45—**PHLOX, Special Annual Mixture.** This contains all the grandiflora varieties (12 inches high). Gives a delightful array of colors, fine for edging in back of low growing subjects. Pkt. 15c.
- 46—**Portulaca, Large Flowering Single Mixed.** Makes a brilliant carpet for a sunny spot where a ground cover is needed. Pkt. 10c $\frac{1}{4}$ oz. 20c.
- 47—**Portulaca, Best Double Mixture.** This is a nice variety of many colors, resembling miniature roses. Pkt. 15c, $\frac{1}{8}$ oz. 50c.
- 48—**Salvia, Splendens Type, American (Globe of Fire).** Grows 16 inches. Freest and most continuous bloomer, also the most uniform in habit, fine for bedding. Pkt. 25c, $\frac{1}{4}$ oz. 75c.
- 49—**Scabiosa (Morning Bride or Pincushion Flower), Royal Cockade Type, Monarch-Mixed.** Conical form with attractive depth of flower in very pretty colors. Pkt. 20c.
- 50—**Scabiosa Blue Moon.** The flowers are a luscious shade of deep lavender-blue, produced on long stems. Ideal cutting variety as the flowers are large built up in conical shape! 2-3 ft. Pkt. 15c.
- 51—**Sweet Peas, Special Mixture of Early Flowering Spencers.** A new race of sweet peas, having the large wavy flowers in a nice range of colors. Particularly recommended where spring is late as they give flowers before the summer heat arrives. Pkt. 15c, 1 oz. 50c.
- 52—**Verbena, Special Dwarf Mixture.** Vivid colors giving a brilliant effect in mass planting. They bloom continuously and make gay bouquets for table decorations. Pkt. 25c, $\frac{1}{8}$ oz. 50c.
- 53—**Zinnia, Mixture of Midget varieties.** Single double and semi-double flowers are produced in abundance. The color range is most interesting. Pkt. 15c, $\frac{1}{4}$ oz. 50c.
- 54—**Pumila Double ("Cut and Come Again").** On bushy plants, 18 inches tall, fully double flowers. Pkt. 10c, $\frac{1}{4}$ oz. 25c.
- 55—**Dahlia Flowered Gold Medal Mixed.** A variety of delightful colors, all giant flowers, 3 ft high. pkt. 15c, $\frac{1}{4}$ oz. 50c.

TWO VERY CHOICE TENDER PERENNIALS
IN THE NORTH

Both should be treated as annuals.

Convolvulus Mauritanicus (Miniature Morning Glory). A persistent summer plant for the rock garden and border. Most attractive blue flowers from June to frost. Trailing habit. 3 for 40c, \$1.50 per doz.

Nierembergia Hippomanica. Compact, low-growing, only 6 inches high. Covered with cup-shaped blue flowers the entire summer and early fall. Showy, free-blooming and grows lustily. Strong pot-plants. 3 for 35c, 6 for 60c, \$1.00 per doz.

During the spring months we carry quite a selection of annual plants in many different varieties at reasonable prices.

NEW EARLY FLOWERING HARDY TRITOMAS

Being Introduced This Year By Wayside Gardens

Bloom From June Till Frost

Heretofore the Red Hot Poker has been known generally as a brilliant orange red fall flowering plant. There are species, however, which are early blooming and quite hardy. These have been successfully crossed and recrossed to that now we can offer a collection of hardy early flowering kinds. In selection the new colors, naturally white, ivory, and pale yellow shades were given preference because they were, in the first place, totally lacking and secondly, they are the most desirable tints for early and midsummer gardens. In order to permit wide distribution of these novel colors, we have grown a large number of them and are because of the quantity production able to offer them at a very modest price. Every plant we send out will produce numerous flowers, but not until the second year do they come to perfection. Highlight your garden with these novel flowers, and use them freely for cutting for which they are so perfectly suited because the flowers are loose and graceful, and do not have the heavy solid spikes of the garden varieties.

VARIETIES

A. J. Van Laaren—ivory-white.

Hortulanus Witte—almost pure white.

Isabella—orange yellow, tipped laccquer-red.

La Citroniere—lemon yellow.

Old Ivory—creamy white.

Parmentier—coral pink.

Pres. MacMahon—salmon-pink to red.

Queen Wilhelmina—white.

Vanilla—straw yellow.

White Chief—pale yellow and ivory white.

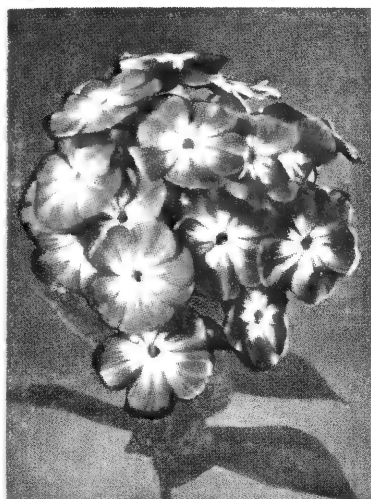

Any above 10 varieties 60c each. Any 3 for \$1.50. Any 10 for \$4.50.

For other Tritomas see page 26.
